

## Second Grade Pacing Guide Weeks 1-9

| Week                                                                                                                                                                       | Unit and Topic                                                                                                                                                                                                                                                                                                                                                                                                                                                          | Time Completed |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------|
| <p align="center"><b>Operations and Algebraic Thinking</b></p> <p align="center"><b>Represent and solve problems involving addition and subtraction</b></p>                |                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |                |
| 1-2                                                                                                                                                                        | Use addition and subtraction within 10 to solve real-world problems involving situations of unknowns in all positions, e.g., for any unknown in a subtraction word problem, to represent the problem.                                                                                                                                                                                                                                                                   |                |
| <p align="center"><b>Operations and Algebraic Thinking</b></p> <p align="center"><b>Use addition and subtraction within 10</b></p>                                         |                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |                |
| 3                                                                                                                                                                          | Fluently add and subtract within 10 using mental strategies.                                                                                                                                                                                                                                                                                                                                                                                                            |                |
| <p align="center"><b>Number and Operations in Base Ten</b></p> <p align="center"><b>Understand place value</b></p>                                                         |                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |                |
| 4                                                                                                                                                                          | <p>Understand that the two digits of a two-digit number represent amounts of tens and ones; e.g., 70 represents 7 tens and 0 ones. Understand the following:</p> <ul style="list-style-type: none"> <li>10 ones is the same as 1 ten (a bundle of 10 ones is called a "ten").</li> <li>The numbers 100, 200, 300, 400, 500, 600, 700, 800, and 900 refer to one, two, three, four, five, six, seven, eight, and nine hundred (and from one to nine hundred).</li> </ul> |                |
| <p align="center"><b>Number and Operations in Base Ten</b></p> <p align="center"><b>Use place value understanding and properties of operations to add and subtract</b></p> |                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |                |
| 5                                                                                                                                                                          | Fluently add and subtract within 100 using strategies based on place value, properties of operations, and/or the relationship between addition and subtraction.                                                                                                                                                                                                                                                                                                         |                |

### Testing Guide Weeks 10-18

| Task and Topic                                                                                                                                                                                 | Task Completed |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------|
| <p><b>1. and Algebraic Thinking</b></p> <p>Identify existing problems and connections</p>                                                                                                      |                |
| <p>Identify some new and interesting word problems (e.g., how many, putting together, taking apart, and sharing), e.g., by using drawings and equations (see 1. to represent the problem).</p> |                |
| <p><b>2. and Algebraic Thinking</b></p> <p>Identify common ratios (2:1)</p>                                                                                                                    |                |
| <p>Using mental strategies</p>                                                                                                                                                                 |                |
| <p><b>3. Operations in Base Ten</b></p> <p>Identify basic rules</p>                                                                                                                            |                |
| <p><b>4. Operations in Base Ten</b></p> <p>Identify patterns of operations to add and subtract</p>                                                                                             |                |
| <p>Identify strategies based on place value and</p>                                                                                                                                            |                |
| <p><b>Measurement and Data</b></p> <p>Identify lengths in common units</p>                                                                                                                     |                |
| <p>Use both nonstandard and standard units to measure and find the length of an object, expressing the length in unit</p>                                                                      |                |

### Index Guide Weeks 19-26

| Set and Type                                                                                                                                                        | How Completed |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------|
| <b>1 and Algebraic Thinking</b>                                                                                                                                     |               |
| Identify existing patterns and relationships                                                                                                                        |               |
| (This table can get boring, using patterns they have, getting together, using past, and others, e.g., to using thinking and questions for to represent the pattern) |               |
| <b>2 and Algebraic Thinking</b>                                                                                                                                     |               |
| Identify a set of numbers for multiplication                                                                                                                        |               |
| An open 3D box is used to show number of (existing) items, to which a number of (new) items are added                                                               |               |
| <b>3 and Operations in Base Ten</b>                                                                                                                                 |               |
| Identify, draw, and                                                                                                                                                 |               |
| Using number lines, number names, and                                                                                                                               |               |
| <b>4 and Operations in Base Ten</b>                                                                                                                                 |               |
| Use properties of operations to add and subtract                                                                                                                    |               |
| Use number lines to (adding and subtracting) numbers, and to the relationship between                                                                               |               |
| Real (intended) that is adding is subtracting (adding) numbers and (adding) they are using, (subtracting) to complete in the opposite way                           |               |
