physicians      **Applied Geography: Issues, Questions, and Concerns** M.S. Kenzer, 2013-11-11 The completion of this collection took many months and for a variety of reasons required the assistance and/or indulgence of a number of individuals. First and foremost I would like to thank Tim Hudson for his useful input and support at the outset of the project. Likewise I would like to thank Jesse O. McKee for providing a hospitable environment during my affiliation with the University of Southern Mississippi. At Louisiana State University I am grateful to Sam Hilliard and Carville Earle for their invaluable understanding. The book became part of the GeoJournal Library as a result of Wolf Tietze's confidence in the topic and because of Henri G. van Dorssen's and Kluwer Academic Publishers' good nature despite numerous problems. Curtis C. Roseman and the remainder of the Geography Department at the University of Southern California where I completed many last minute details for the volume are to be thanked for the cordial and warm environment I received while a visitor in Los Angeles. Finally, no multi-authored collection reaches completion without the help of many patient contributors. This particular book suffered many setbacks along the way so I am particularly grateful to the authors herein. They demonstrated their compassion and exceptional professionalism throughout by never second-guessing my decisions and by allowing me to remedy the setbacks in my own way. They were a pleasure to work with and they should take pride in their achievements.
