Akinola,2019-03-08 This book assesses the effectiveness of Nigeria s counterterrorist policies against Boko Haram It takes a critical review of the interventionist strategies adopted by the Nigerian government highlights the motivations behind the choice of strategies and proffers a deeper understanding of the factors responsible for the state s inability thus far to rid the country of terrorism Specifically it evaluates the NACTEST policy framework that guides the Nigerian state s counterterrorist strategies which contains both hard and soft power approaches Adopting historical and case study approaches which put the Nigerian state and occurrences of violent conflict in context it takes cognizance of the politics of ethno religious diversity which reinforce violent conflicts among groups and against the state and reviews the socio economic and political realities that led to the emergence and sustenance of Boko Haram The volume concludes by suggesting practical policy options for combating Boko Haram and other similar armed insurrection This book is appropriate for researchers and students interested in African politics conflict security peace studies terrorism and counterterrorism as well as policy makers and government departments dealing with terrorism and counterterrorism **Japanese Women in Science and Engineering** Naonori Kodate,Kashiko Kodate,2015-07-30 The gender gap in science technology engineering and mathematics STEM varies greatly from country to country and the number of Japanese women in these fields remains relatively few This prompts us to ask why the proportion of female scientists in Japan is still remarkably low and what measures the government universities and research institutes are taking to address this issue This book sheds light on historical developments and the current gender equality situation in Japan through the lens of women in STEM It shows how a policy of gender equality in science and engineering has been introduced through the coordinated efforts of academia scientific societies and the government and how this has led to a slow but steady increase in female representation The book draws on extensive data including interviews with government officials scientists and educators in Japan to provide a revealing case study on how the underrepresentation of women in the fields of science technology and engineering has been approached and dealt with by a national government It heralds a new era for female scientists by showcasing several programmes undertaken by government universities and national research institutions to support multiple career paths for and the progression of female scientists in Japan Tracing the historical development of Japan s policies towards women in

science and education this book will be welcomed by students and scholars interested in Japanese studies comparative social policy gender studies employment and the history of science and technology Conservation and Management of Tropical Rainforests, 2nd Edition Eberhard F Bruenig, 2016-12-07 This new edition of Conservation and Management of Tropical Rainforests applies the large body of knowledge experience and tradition available to those who study tropical rainforests Revised and updated in light of developments in science technology economics politics etc and their effects on tropical forests it describes the principles of integrated conservation and management that lead to sustainability identifying the unifying phenomena that regulate the processes within the rainforest and that are fundamental to the ecosystem viability Features of the natural forest and the socio cultural ecosystems which can be mimicked in the design of self sustaining forests are also discussed A holistic approach to the management and conservation of rainforests is developed throughout the book The focus on South East Asian forestry will be widened to include Africa and Latin America Recent controversial issues such as biofuels and carbon credits with respect to tropical forests and their inhabitants will be discussed This book is a substantial contribution to the literature it is a valuable resource for all those concerned with rainforests **Framing the Threat** Imke Köhler, 2019-03-04 There is great power in the use of words words create most of what we consider to be real and true Framing our words and narratives is thus a tool of power but a power that also comes with limitations This intriguing issue is the topic of Framing the Threat an investigation of the relationship between language and security and of how discourse creates the scope of possibility for political action In particular the book scrutinizes and compares the security narratives of the former US presidents George W Bush and Barack Obama It shows how their framings of identity i e of the American self and the enemy other facilitated a certain construction of threat that shaped the presidents detention and interrogation policies By defining what was necessary in the name of national security Bush s narrative justified the operation of the detention center at Guantanamo Bay and rendered the mistreatment of detainees possible a situation that would have otherwise been illegal Bush s framings therefore enabled legal limits to be pushed and made the violation of rules appear legitimate Obama in contrast constructed a threat scenario that required an end to rule violations and the closure of Guantanamo for security reasons According to this narrative a return to the rule of law was imperative if the American people were to be kept safe However Obama s framing was continually challenged and it was never able to dominate public discourse Consequently Framing the Threat argues Obama was unable to implement the policy changes he had announced

Winning at the Turning Point Fulin Chi, 2019-10-09 This book by influential policymaker Chi Fulin lays out in issue oriented and detailed chapters at a time when China is at a crossroads exactly how the government plans to deal with the social political and economic issues the world s second largest economy faces From managing the decline of industry to urbanization to managing consumption to social security and education Chi offers a roadmap for the years ahead This book will be particularly fascinating to Western scholars of China who speculate on the inner workings of the Chinese

policymaking elite with the ambition of China's central planners here laid out for the world to see *Telling Stories Differently* Janet Condy, 2015-09-01 The aim of this book is to share a relatively loose collection of studies using digital storytelling as a pedagogical tool in Cape Peninsula University of Technology CPUT The book takes an informed social justice approach to teaching and learning at the heart of which is the exploration of DST as a practice of voice and agency Voice and agency are important in excavating and recovering subjugated identities and moving the concerns of those occupying subaltern spaces to the mainstream of teaching and learning Yet this discursive shift is not without inherent challenges Multi modal technologies are reflective of wider inequities in the so called technological divide Whilst this is a book about higher education there are important lessons for schooling On the one hand the book is a powerful demonstration of the potential of DST for enhancing learning in schools particularly in schools serving the poor and marginalised On the other hand improving teaching and learning in higher education through the creative use of technology is essential to overcome the learning challenges of those entering tertiary level institutions *In Their Place* Stephen Crossley, 2017-08-20 This book critiques how impoverished communities are represented by politicians the media academics and policy makers and how our understanding of these neighbourhoods is often misleadingly shaped by these stories The alleged behavioural failings of poor people have attracted a great deal of academic and political scrutiny Spatial inequalities are also well documented and poor neighbourhoods have been extensively researched However other spaces have been re imagined in different ways by politicians academics journalists and social reformers These imagined geographies include exoticised slums cities being reclaimed by nature the street and domestic spaces like the kitchen or even the bedroom In Their Place highlights how these spaces are represented and how these representations are deployed manipulating political and media discourses around the individuals and communities who live there These distortions are often used to keep people in their place by making sure everyone knows where the poor belong This book will reorient those interested in human geography away from deprived neighbourhoods and back to the foundational spaces where political decisions and poverty are made in Britain today

Public and Private Enforcement of Securities Laws Michael Legg, 2022-02-10 This book undertakes unique case studies including interviews with participants as well as empirical analysis of public and private enforcement of Australian securities laws addressing continuous disclosure Enforcement of laws is crucial to effective regulation Historically enforcement was the province of a government regulator with significant discretion public enforcement However more and more citizens are being expected to take action themselves private enforcement Consistent with regulatory pluralism public and private enforcement exist in parallel with the capacity to both help and hinder each other and the achievement of the goals of enforcement in a range of areas of regulation The rise of the shareholder class action in Australia backed by litigation funding or lawyers has given rise to enforcement overlapping with that of the government regulator the Australian Securities and Investments Commission The ramifications of overlapping enforcement are explained based on detailed

analysis The analysis is further bolstered by the regulator s approach to enforcement changing from a compliance orientation to a Why not litigate approach The analysis and ramifications of the Australian case studies involve matters of regulatory theory and practice that apply across jurisdictions The book will appeal to practitioners regulators and academics interested in regulatory policy and enforcement and the operation of regulators and class actions including their interaction
