How To Join The Police Saps For Grade 11:

Police Work and Identity Andrew Faull, 2017-09-07 This is a book about the men and women who police contemporary South Africa Drawing on rich original ethnographical data it considers how officers make sense of their jobs and how they find meaning in their duties It demonstrates that the dynamics that lead to police abuses and scandals in transitional and neo liberalising regimes such as South Africa can be traced to the day to day experiences and ambitions of the average police officer It is about the stories they tell themselves about themselves and their social worlds and how these shape the order they produce through their work By focusing on police officers this book positions the individual in primacy over the organisation asking what policing looks like when motivated by the pursuit of ontological security in precarious contexts It acknowledges but downplays the importance of police culture in determining officers attitudes and behaviour and reminds readers that most officers lives are entangled in and shaped by a range of social political and cultural forces It suggests that a job in the South African Police Service SAPS is primarily just that a job Most officers join the organisation after other dreams have slipped beyond reach their presence in the Service being almost accidental But once employed they re write their self narratives and enact carefully choreographed performances to ease managerial and public pressure and to rationalize their coercive practices In an era where evidence and what works reigns supreme and where cop culture is often deemed a primary socializing force this book emphasises how officers personal histories ambitions and vulnerabilities remain central to how policing unfolds on the street

Class and Social Background Discrimination in the Modern Workplace Angelo Capuano, 2025-07-15 This book exposes how inequalities based on class and social background arise from employment practices in the digital age It considers instances where social media is used in recruitment to infiltrate private lives and hide job advertisements based on locality where algorithms assess socio economic data to filter candidates where human interviewers are replaced by artificial intelligence with design that disadvantages users of classed language and where already vulnerable groups become victims of digitalisation and remote work The author examines whether these practices create risks of discrimination based on certain protected attributes including social origin in international labour law and laws in Australia and South Africa social condition and family status in laws within Canada and others The book proposes essential law reform and improvements to workplace policy

Ivkovich, Adri Sauerman, 2020-04-29 Policing in South Africa has gained notoriety through its extensive history of oppressive law enforcement. In 1994, as the country's apartheid system was replaced with a democratic order, the new government faced the significant challenge of transforming the South African police force into a democratic police agency: the South African Police Service (SAPS), which would provide unbiased policing to all the country's people. More than two decades since the initiation of the reforms, it appears that the SAPS has rapidly developed a reputation as a police agency beset by challenges to its integrity. This book offers a unique perspective by providing in-depth analyses of police integrity in South Africa. It is a case study that systematically and empirically explores the contours of police integrity in a young democracy. Using the organizational theory of police integrity, the book analyzes the complex set of historical, legal, political, social, and economic circumstances shaping police integrity. A discussion of the theoretical framework is accompanied by the results of a nationwide survey of nearly 900 SAPS officers probing their familiarity with official rules, their expectations of discipline within the SAPS, and their willingness to report misconduct. The book also examines the influence of the respondents' race, gender, and supervisory status on police integrity. Written in a clear and direct style, this book will appeal to students and scholars of criminology, policing, sociology, political science, as well as to police administrators interested in expanding their knowledge about police integrity and enhancing it in their organizations. *Security Governance, Policing, and Local Capacity* Jan Froestad, Clifford Shearing, 2012-12-13 The security governance of South Africa has faced immense challenges amid post-apartheid constitutional and political transformations. In many cases, policing and governmental organizations have failed to provide security and other services to the poorest inhabitants. *Security Governance: Policing and Local Capacity* explores an experiment that took place in Zwelethemba, located in South Africa's Western Cape Province, to establish legitimate and effective nonstate security governance within poor urban settlements. There has been and continues to be much reticence to endorsing private forms of security governance that operate outside of state institutions within local communities. Those initiatives have often led to situations where force is used illegally and punishment is dispensed arbitrarily and brutally. This book explores the extent to which this model of mobilizing local knowledge and capacity was able to effectively achieve justice, democracy, accountability, and development in this region. Whenever possible, the book includes raw data and a thorough analysis of existing information on security governance. Examining this case and its outcome, the authors provide a theoretical analysis of the model used and present a series of design principles for future applications in local security governance. The book concludes that poor communities are a significant source of untapped resources that can, under certain conditions, be mobilized to significantly enhance safety. This volume is an important examination of experimental models and a presentation of new groundbreaking theory on engaging the local community in solving security governance problems. **Police Culture in a Changing World** Bethan Loftus, 2009 Theoretically and empirically informed, *Police Culture in a Changing World* is a landmark work on contemporary policing culture. Its timely

character also has relevance with respect to highly salient issues in the current political climate regarding operational policing Publisher description **The African National Congress and the Regeneration of Political Power** Susan Booysen, 2011-11-11 The African National Congress is light years beyond the liberation movement of old It remains a juggernaut but its control and dominance are no longer watertight The ANC lives the contradictions of weaknesses cracks and factions while retaining its colossal status As a party movement it draws on its liberation credentials and extracts immense power from its deep anchorage in South Africa s people It is immersed in electoral politics that marks the state of its overwhelming power cyclically As government the ANC is the object of protest but not protest designed to bring the ruling party to its knees The ANC is in command of the state yet fails to definitively counter the deficits that make South Africa s democracy seem so diluted Its incredulous and thus far trusting supporters condemn but only rarely punish deployees who do not pass through the eye of the needle The ANC and the Regeneration of Political Power unpacks these contradictions It focuses on four faces of the ANC s political power the organisation the people political parties and elections and policy and government and explores how the ANC has acted since 1994 to continuously regenerate its power By 2011 12 the power configurations around the ANC were converging to a conjuncture holding vexing uncertainties This book presents insights into how South African politics in many ways synonymous with the politics of the ANC is likely to unfold in years and possibly decades to come Epidemiologic Trends in Drug Abuse National Institute on Drug Abuse. Community Epidemiology Work Group, 2000 **Policing and Human Rights** Julia Hornberger, 2011-10-21 Policing and Human Rights analyses the implementation of human rights standards tracing them from the nodal points of their production in Geneva through the board rooms of national police management and training facilities to the streets of downtown Johannesburg This book deals with how the unprecedented influence of human rights combined with the inability by police officers to live up to international standards has created a range of policing and human rights vernaculars hybrid discourses that have appropriated transmogrified and undercut human rights Understood as an attempt by police officers as much as by the police as a whole to recover a position from which to act and to judge these vernaculars reveal the compromised ways in which human rights are and are not implemented Tracing how in South Africa human rights have given rise to new forms of popular justice informal private policing and provisional security arrangements Policing and Human Rights delivers an important analysis of how the dissemination and implementation of human rights intersects with the post colonial and post transformation circumstances that characterise many countries in the South
