Battle Sr,2015-12-29 Many people in the body of Christ may not be aware of the role of angels in our lives and how vitally important they are to believers There are two worlds at workthe visible and the invisibleand angels are important participants In his book Angels Live among Us author Franklin D Battle outlines the many instances in the Bible where angels play important roles in Gods relationships with humankind He provides Scriptures that will educate you on who these angels really are You will learn the ranks and names of the angels as well as those who have fallen Battle also provides guidance in how to ask God to send angels to minister to you He shares many of his experiences with angels which will encourage and inspire you to believe Angels Live among Us puts angels in their proper place in biblical history Whether used for group Bible study individual study or seminars it provides the opportunity to appreciate the roles angels played in Christianity and can play in your life      Safety Related Recall Campaigns for Motor Vehicles and Motor Vehicle Equipment, Including Tires ,      **God's Quantum Vortex** Jim Walker,2015-10-15 The story evolves from the personal experiences of the writer from his deep forty years research and discoveries of quantum cone vortex Once into awareness he reveals the techniques of connecting and triggering the Act of God events He formulates the mysteries of self fate programming He explains how the government religion finance and science are interconnected for the first time in history His research deep dives into the Bible yoga meditation wave particle quantum physics and into occult the metaphysics He is not just theorizing about life events he is proactively changing the events in biblical proportions He becomes the miracle creator by thought and by action the trigger man who can only relate to the higher dimensions and to cosmic intelligence The formulas he writes may seem similar to previous theoretical physicists but they are his own concept given the examples of his work and e mail prior to God s Particle Boson announcement by Peter Higgs on July 4 2012 The quantum cone vortex diagram and its connection to yin and yang with annihilation and creation related to cosmic spiral sequence of four sixes may seem absurd to earth fourth dimensional

thinkers but it is backed by facts by the author His prediction of the next flood is backed by errors in time measured by Mayans and Nostradamus Once a person is elevated to the vortex in quantum cone with zero weight gravity and when time stops in quantum reality then he or she will be able to be awarded with all possibilities to create or destroy The writer imitates the out of the box thinking of God but he is not comparing himself to cosmic intelligence He just uses the quantum energy in form of dark and light energy he calls Satan and God for convenience The examples are powerful and convincing The reader should not just observe the author's human encounters to get to quick conclusions It is a manual of how to think without fear Once the fear is eliminated the mind is open to deep into subconsciousness and to build the awareness where all possibilities are unrestricted and to rise to the sixth cosmic dimension God      **Michigan Municipal Review** ,2002      WALNECK'S
