? Greatest Tips About Pool You Need to Know George Moyle, 2019-07-30 Greatest Tips about Pool You Need to Know makes various shots using English easy for beginners but it leans closer to those players who want to excel in the game of pool as semipro. It details a system that will show you every angle on the table. Also it makes mass shots simple and contains diagrams of kick shots. In addition it contains the best information on the quarter system for those who have a hard time with angles. *Big Stick-Up at Brink's!* Noel Behn, 2016-06-14 A riveting and frequently hilarious insider account of one of the twentieth century's most outrageous capers. On the evening of January 17, 1950, armed robbers wearing Captain Marvel masks entered the Brink's Armored Car building in Boston, Massachusetts. They walked out less than an hour later with more than \$2.7 million in cash and securities. It was a brazen and expertly executed theft that captured the imaginations of millions of Americans and baffled the FBI and local law enforcement officials. But what appeared on the surface to be the perfect crime was in fact the end result of a mind-boggling series of mistakes, miscalculations, and missteps. The men behind the masks were not expert bank robbers but a motley crew of small-time crooks who bumbled their way into a record-breaking payday and managed to elude the long arm of the law for six years. New York Times bestselling author Noel Behn tape-recorded nearly one thousand hours of interviews with the surviving robbers, including motormouthed mastermind Tony Pino, a character so colorful he might have been dreamed up by a Hollywood screenwriter to tell the uncensored story of the heist forever known as the Great Brink's Robbery. Fun and suspenseful from first page to last, Behn's true crime classic was the basis for *The Brink's Job*, 1978, the Academy Award-nominated film directed by William Friedkin and starring Peter Falk and Peter Boyle. *Popular Science*, 1950-06 *Popular Science* gives our readers the information and tools to improve their technology and their world.
