Raday,2019-05-14 The author introduces the concept of economic woman and makes her visible in duality with and
opposition to the exclusive model of economic man Economic man has epitomized neo liberal capitalism which embraces
competition and maximization of profit resulting in a steep increase in economic inequality The book demonstrates that
women s inequality is a crucial factor in economic inequality which cannot be fully understood without relating to women s
situation and that economic woman cannot thrive in the conditions of economic inequality created under global neo
liberalism Emphasising the international human rights guarantees of women s right to equality in all fields of life the author
documents woman s increased participation in political public financial and corporate institutions employment and
entrepreneurship with some women reaching high profile positions Nevertheless using global data she reveals that economic
woman lags behind with a severe economic power deficit an unfulfilled promise of equal employment opportunity a gendered
impact of poverty and barriers to gender equality in the family The book analyses the trap of women s increased burden of
breadwinning in the context of discriminatory laws and practices infrastructural failures and policy gaps which preempt
achievement of gender equality in economic life The book is intended for the general reader academics students policy
makers and NGOs It shows economic woman at a global crossroads between a universal paradigm of gender equality and
pervasive barriers to equal economic opportunity The author demonstrates that tackling gender inequality restoring welfare
priorities and reducing economic inequality are inextricably linked Human rights and governments have a vital role to play in
addressing them all to create a sustainable economic infrastructure for the lives of women and men *ADM. R.P.F. Lucii*
