Ikea White Childrens Shelf:

Unpacking IKEA Pauline Garvey, 2017-11-23 This book represents the first anthropological ethnography of Ikea consumption and goes to the heart of understanding the unique and at times frantic popularity of this one iconic transnational store Based on a year of participant observation in Stockholm s Kungens Kurva store the largest in the world this book places the retailer squarely within the realm of the home building efforts of individuals in Stockholm and to a lesser degree in Dublin Ikea the world s largest retailer and one of its most interesting is the focus of intense popular fascination internationally yet is rarely subject to in depth anthropological inquiry In Unpacking Ikea Garvey explores why Ikea is never just a store for its customers and questions why it is described in terms of a cultural package as everyday and classless Using in depth interviews with householders over several years this ethnographic study follows the furniture from the Ikea store outwards to probe what people actually take home with them
