Allocation of Liability for Dangerous Goods under International Trade Law Ahmet Gelgeç, 2022-12-29 This book explores the allocation of risk and liability of dangerous goods between the seller and the buyer under CIF Cost Insurance and Freight and FOB Free on Board contracts providing an in depth study of the issue of carriage of dangerous goods in the context of international trade law In addition to offering specific solutions to issues arising in the context of the contract of sale the book provides a non contractual angle putting forward suggestions under non contractual mechanisms Importantly the book incorporates case law examples from the Commonwealth and the US Dangerous goods that are carried by sea can cause potential risks of losses and damages to the vessel other cargoes and lives on board The allocation of liability arising out of the carriage of dangerous goods has recently attracted unwelcome attention because of mis declared cargoes leading to fires on board ships Thus the book fills a gap in the literature by addressing the issue in detail with examples from multiple jurisdictions and proposing solutions In particular the book analyses whether and to what extent the law of international sale of goods can provide any assistance in the re allocation of liability between the buyer and the seller This book will be of great interest to all those involved in the research as well as legal practice of international trade law and the law of carriage of goods by sea www.owaysonline.com *Chief Mate ORALS Notes for Function 1,2 and 3* www.owaysonline.com , Visit www.owaysonline.com for cheapest notes Chief Mate ORALS for Function 1 2 and 3
