Reviewing Crime Psychology David Canter, Donna Youngs, 2020-12-17 The recent explosion of research and practice relating to offending and the related investigative and legal processes makes it extremely difficult for anyone to master these emerging areas of research This book will help readers to navigate through this rapidly expanding area of scholarship and practice by bringing together a number of recent reviews on key topics by leading experts in the field Contributions to the volume discuss developments in the study of interviewing and the detection of deception together with explorations of victims and offenders The psychological background and consequences of school bullying child sexual abuse and male rape are also explored as are the challenges of collecting information about crimes as varied as burglary and serial killing This book will be a valuable resource for criminologists crime and forensic psychologists students of socio legal processes and all those involved in legal and investigative activities The chapters in this book were originally published as review articles in Crime Psychology Review

Tackling Causes and Consequences of Health Inequalities James Matheson, John Patterson, Laura Neilson, 2020-01-14 Addressing health inequalities is a key focus for health and social care organizations This book explores how best frontline health workers in areas of deprivation can address these problems Aimed at doctors and their wider multidisciplinary teams this book provides key knowledge and practical advice on how to address the causes and consequences of health inequalities to achieve better outcomes for patients Considering the psychological financial and social aspects of well being as well as health concerns this book offers a concise but comprehensive overview of the key issues in health inequalities and most importantly how practically to address them Key Features Comprehensively covers the breadth of subjects identified by RCGP's work to formulate a curriculum for health inequalities The first book to address the urgent area of causes and consequences of health inequalities in clinical practice Chapters are authored by expert practitioners with proven experience in each aspect of health care Applied practical focus demonstrating approaches that will work and can be applied in every situation of inequality Provides evidence of how community based primary care can make a change

Handbook of Philosophy of Management Cristina Neesham, Markus Reihlen, Dennis Schoeneborn, 2022-12-01 The Handbook of Philosophy of Management addresses the philosophical foundations of management in theory and practice It covers established branches of philosophy such as aesthetics epistemology moral philosophy political and social philosophy philosophy of education philosophy of practice and philosophy of science The

Handbook's broad scope maps out the field and provides a forum where philosophy can be meaningfully applied to the study of management in all its forms. The original peer-reviewed research published here sheds new light on the complexities of management theory and practice beyond what hitherto has been possible with the sole application of the social sciences. As philosophy provides a meta-framework for moving beyond paradigm fragmentation within management research and education, this allows researchers and practitioners to find harmony and discord in the perspectives revealed by a philosophical lens.

Life-Cycle Civil Engineering: Innovation, Theory and Practice Airong Chen, Xin Ruan, Dan M. Frangopol, 2021-02-26. Life Cycle Civil Engineering: Innovation Theory and Practice contains the lectures and papers presented at IALCCE2020, the Seventh International Symposium on Life Cycle Civil Engineering held in Shanghai, China, October 27-30, 2020. It consists of a book of extended abstracts and a multimedia device containing the full papers of 230 contributions, including the Fazlur R. Khan lecture, eight keynote lectures, and 221 technical papers from all over the world. All major aspects of life cycle engineering are addressed, with special emphasis on life cycle design, assessment, maintenance, and management of structures and infrastructure systems under various deterioration mechanisms due to various environmental hazards. It is expected that the proceedings of IALCCE2020 will serve as a valuable reference to anyone interested in the life cycle of civil infrastructure systems, including students, researchers, engineers, and practitioners from all areas of engineering and industry.

Cognitive Engineering for Next Generation Computing Kolla Bhanu Prakash, G. R.

Kanagachidambaresan, V. Srikanth, E. Vamsidhar, 2021-05-06. The cognitive approach to the IoT provides connectivity to everyone and everything, since IoT-connected devices are known to increase rapidly. When the IoT is integrated with cognitive technology, performance is improved, and smart intelligence is obtained. Discussed in this book are different types of datasets with structured content based on cognitive systems. The IoT gathers the information from the real-time datasets through the internet, where the IoT network connects with multiple devices. This book mainly concentrates on providing the best solutions to existing real-time issues in the cognitive domain. Healthcare-based, cloud-based, and smart transportation-based applications in the cognitive domain are addressed. The data integrity and security aspects of the cognitive computing main are also thoroughly discussed along with validated results.

Poetry for historians Carolyn Steedman, 2018-04-13. This is a book about the conflict between history and poetry, and historians and poets in Atlantic World society from the end of the seventeenth century to the present day. Blending historiography and theory, it proceeds by asking what is the point of poetry as far as historians are concerned. The focus is on W. H. Auden's Cold War era history poems, but the book also looks at other poets from the seventeenth century onwards, providing original accounts of their poetic and historical educations. An important resource for those teaching undergraduate and postgraduate courses in historiography and history and theory. Poetry for historians will also be of relevance to courses on literature in society and the history of education. General readers will relate it to Steedman's *Landscape for a Good Woman* (1987) and *Dust* (2001) on account of its biographical and
