Life Sciences P1 Nov 2014 Essay:

The Philosophy of Pornography Lindsay Coleman, Jacob M. Held, 2014-09-08 For many individuals pornography is a troubling and problematic issue. Regardless of how the public views this topic, one thing is clear: Pornography is as prevalent and accessible as smartphones and laptop computers. Indeed, beyond traditional hardcore material, a pornographic sensibility permeates many aspects of culture, from tween and young teen fashions to television and commercially successful films. In fact, pornography is so widespread that more often than not it is taken as a given in our modern social space. However, the thought of engaging in intellectual discussions about the topic strikes many, particularly scholars, as beneath them. And yet, something this impactful this definitive of modern culture needs to be laid open to scrutiny. In *The Philosophy of Pornography: Contemporary Perspectives*, Lindsay Coleman and Jacob M. Held offer a collection of essays covering a wide range of viewpoints from issues of free speech and porn's role in discrimination to the impact of porn on sexuality. These essays investigate the philosophical implications of pornography as a part of how we now seek to conceive and express our sexuality in contemporary life. Contributors to this volume discuss pornography as a component of gender and sexual socialization, ecological understandings of sexually explicit media, subordination, sexualization, and speech, feminism, and pornography, pornography's depiction of love and friendship, black women and pornography, playfulness and creativity in porn. Because its subject matter—sex, gender, interpersonal relationships, and even love—is reflective of who we are and what kind of society we want to create, pornography demands serious treatment. So whether one chooses to accept pornography as a fact of modern culture or not, this collection of timely essays represents a variety of voices in the ongoing debate. As such, *The Philosophy of Pornography* will be of interest to not only those who are engaged in porn studies but also to an audience educated in and conversant with recent trends in philosophy.

Exit from Globalization Richard Westra, 2014-10-24 *Exit from Globalization* moves from theory to practice from questions of where incorrigible knowledge of substantive economic life derives and how that knowledge is put towards making a progressive redistributive, eco-sustainable future of human flourishing. Westra discards at the outset the view that the root of current economic ills is the old devil we know, capitalism. Rather, he maintains the neoliberal decades spawned a Merchant of Venice economic excrescence bent upon expropriation and rent seeking which will scrape all the flesh from the bones of humanity if not stopped dead in its tracks. En route to providing a viable design for the human future in line with transformatory demands of socialists and Greens, Westra exorcizes both Soviet demons and ghosts of neoliberal ideologues past which lent support to the position that there is no alternative to the market. *Exit from Globalization* shows in a clear and compelling fashion that while debates over the possibility of another potentially socialist world swirl around this or that grand society-wide scheme, the fact is that creative future-directed thinking has at its disposal several economic principles that transformatory actors may choose from and combine in various ways to remake human economic life. The book concludes with an examination of the various social constituencies currently

supporting radical change and explores the narrowing pathways to bring change about Design, User Experience, and Usability: Design Thinking and Methods Aaron Marcus, 2016-07-04 The three volume set LNCS 9746 9747 and 9748 constitutes the proceedings of the 5th International Conference on Design User Experience and Usability DUXU 2016 held as part of the 18th International Conference on Human Computer Interaction HCII 2016 in Toronto Canada in July 2016 jointly with 13 other thematically similar conferences The total of 1287 papers presented at the HCII 2016 conferences were carefully reviewed and selected from 4354 submissions These papers address the latest research and development efforts and highlight the human aspects of design and use of computing systems The papers accepted for presentation thoroughly cover the entire field of Human Computer Interaction addressing major advances in knowledge and effective use of computers in a variety of application areas The total of 157 contributions included in the DUXU proceedings were carefully reviewed and selected for inclusion in this three volume set The 49 papers included in this volume are organized in topical sections on design thinking user experience design methods and tools usability and user experience evaluation methods and tools *Through the End of the Cretaceous in the Type Locality of the Hell Creek Formation in Montana and Adjacent Areas* Gregory P. Wilson, William A. Clemens, John R. Horner, Joseph H. Hartman, 2014-01-21 The chapters represent a surge of field and laboratory research activity illustrating the impacts of new and refined methods and tools This volume explores geologic and biologic history preserved in the strata bounding the Cretaceous Paleogene boundary Provided by publisher *The Revolution in Science 1500 - 1750* A. Rupert Hall, 2014-07-10 The revolution in science of this book concerns the natural sciences that is knowledge of the external world which we now presume to exist independently of man *Publishers' Circular and Booksellers' Record of British and Foreign Literature*, 1914 *From Observations to Predictions and Projections: Opportunities and Challenges for Climate Risk Assessment and Management in Sub-Saharan Africa* Joerg Helmschrot, Gregory Husak, Francois Engelbrecht, 2022-12-06 **Blood Ties and Politics** Louie Benedict R. Ignacio, Veronica L. Gregorio, Clarence M. Batan, Sampson Lee Blair, 2025-09-02 Topics of discussion include political socialization within the family the influence of extremist online websites marital quality and political ideologies political disagreement and family relationships the impact of propaganda upon family relationships intergenerational patterns of political beliefs and other related issues **Darwin's Dangerous Idea** Daniel C. Dennett, 2014-07-01 In a book that is both groundbreaking and accessible Daniel C. Dennett whom Chet Raymo of The Boston Globe calls one of the most provocative thinkers on the planet focuses his unerringly logical mind on the theory of natural selection showing how Darwin's great idea transforms and illuminates our traditional view of humanity's place in the universe Dennett vividly describes the theory itself and then extends Darwin's vision with impeccable arguments to their often surprising conclusions challenging the views of some of the most famous scientists of our day **Biotechnology in Healthcare, Volume 1** Debmalya Barh, 2022-03-30 *Biotechnology in Healthcare Technologies and Innovations* Volume One presents up to date knowledge on the emerging field

of biotechnology as applied to the healthcare industry Sections cover 3D printing tissue engineering synthetic biology nano biotechnology omics precision medicine gene therapy vaccine development predictive healthcare entrepreneurship financing business models product development and marketing in the sector This is a valuable source for biotechnologists bioinformaticians clinicians and members of biomedical and healthcare fields who need to understand more about the promising developments of the emerging field of biotechnology in healthcare Presents the progress and innovations that biotechnology has accomplished in the field of healthcare Discusses the impact of healthcare biotechnology in global economics and business prospects Explains how biotechnology revolutionizes future healthcare approaches
