**Botta** Bechtler Museum of Modern Art, 2013      **Botta** Paola Pellandini, John Boyer, 2014 The Bechtler Museum of Modern Art in Charlotte North Carolina opened its doors to the public in January 2010 and is one of the most inspired and inspiring spaces in the region Designed by the eminent Swiss architect Mario Botta born 1943 the museum's architecture displays a sculptural power that connects its appearance to the dynamic art it houses In 2014 the museum pays homage to its designer with a monographic exhibition on this Swiss master architect who is internationally renowned for his minimalist style and use of traditional materials such as brick and stone Botta's buildings respect topographical conditions regional factors and building materials This richly illustrated catalogue is published on the occasion of this exhibition From the diversity of Mario Botta's activity and realized work it focuses on four key themes libraries museums theaters and religious buildings These themes express Botta's idea of spaces of memory The book also includes essays including a chapter titled Encounters which presents a selection of works and artists that have influenced Botta's thoughts in fundamental ways and to whom the architect feels indebted plus a biography a list of works a list of personal and group exhibitions and a bibliography

**The Architecture of Mario Botta** Jorge Glusberg, 1980      *The Architecture of Mario Botta* Jorge Glusberg, 1979\*

Speaking of Buildings Naomi Stead, Janina Gosseye, Deborah van der Plaats, 2019-10-15 By and large architectural historians use texts drawings and photographs to craft their narratives Oral testimony from those who actually occupy or construct buildings is rarely taken as seriously Speaking of Buildings offers a rebuttal theorizing the radical potential of a methodology that has historically been cast as unreliable Essays by an international group of scholars look at varied topics from the role of gossip in undermining masculine narratives in architecture to workers accounts of building with cement in midcentury London to a sound art piece created by oral testimonies from Los Angeles public housing residents In sum the authors call for a renewed form of listening to enrich our understanding of what buildings are what they do and what they mean to people      *Open Architecture* Esra Akcan, 2018-04-09 Toward an open architecture the International Building Exhibition in Berlin      *The Domestic and the Foreign in Architecture* Ruth Baumeister, Sang Lee, 2007 For centuries across nations dialogue between the domestic and the foreign has affected and transformed architecture Today these dialogues have become highly intensified The Domestic and the Foreign in Architecture examines how these exchanges manifest themselves in contemporary architecture in terms of its aesthetic potential and its practice which in turn are impacted by broad economic cultural and political issues This book traces how diverse cultural encounters inevitably modify conventional categories standards and codes of architecture such as domestic identity its political and economic representations and the negotiations with what is deemed foreign Theoretical reflections by distinguished scholars are accompanied by interviews with some of the most influential architects practicing today as well as stunning visual presentations by professional photographers      **Psychoanalysis and Architecture** Cosimo Schinaia, 2018-05-08 This book explores how psychoanalysis

and architecture can enhance and increase the chances of mental containment while also fostering exchange between inside and outside The way in which psychoanalysts take care of mental suffering and the way in which architects and city planners assess the environment are grounded in a shared concern with the notion of dwelling It is a matter of fact that dwelling exists in a complex context comprised of both biological need and symbolic function Psychoanalysis and architecture can work together in both thinking about and designing not only our homes but also the analyst s consulting rooms and more generally our therapy places However this is possible only if they renounce the current limited and restrictive model of this interaction and propose one more that is more in harmony with the questions and situations that clients themselves pose

**Architectural Styles** Owen Hopkins, 2014-09-08 Have you ever wondered what the difference is between Gothic and Gothic Revival or how to distinguish between Baroque and Neoclassical This guide makes extensive use of photographs to identify and explain the characteristic features of nearly 300 buildings The result is a clear and easy to navigate guide to identifying the key styles of western architecture from the classical age to the present day *IAUS, the Institute for Architecture and Urban Studies* Suzanne Frank, Suzanne Shulof Frank, 2010 The book is a combined memoir and impressionistic history of the Institute for Architecture and Urban Studies At first affiliated with New York s Museum of Modern Art and Cornell University the Institute housed architects artists and historians who worked on creative design and intellectual projects and would become world renown Its creation and direction was in the hands of its able leader Peter Eisenman Besides a documentary study of the work that went on there among an international clearing house the book is laced with impressions of the author s experience there It has been in the works for over 12 years and was originally financed by the Graham Foundation for the Study of the Fine Arts and has subsequently been aided by Dr Jenny Kaufmann The photographs of the Institute at the height of its activity are included and so does an original ground plan of its West 40th Street office done by Scott Brandi who also designed the book It ends with 27 interviews of prominent members of the Institute who comment on it and their experiences The book should appeal to architecture students and those interested in architecture and urbanism of the seventies when the government in the United States was more reasonable in economic and political equity *The Architecture of Modern Italy* Terry Kirk, 2005-06-02 Modern Italy may sound like an oxymoron For Western civilization Italian culture represents the classical past and the continuity of canonical tradition while modernity is understood in contrary terms of rupture and rapid innovation Charting the evolution of a culture renowned for its historical past into the 10 modern era challenges our understanding of both the resilience of tradition and the elasticity of modernity We have a tendency when imagining Italy to look to a rather distant and definitely premodern setting The ancient forum medieval cloisters baroque piazzas and papal palaces constitute our ideal itinerary of Italian civilization The Campo of Siena Saint Peter s all of Venice and San Gimignano satisfy us with their seemingly unbroken panoramas onto historical moments untouched by time but elsewhere modern intrusions alter and obstruct the view to the landscapes of our expectations As

seasonal tourist or seasoned historian we edit the encroachments time and change have wrought on our image of Italy The learning of history is always a complex task one that in the Italian environment is complicated by the changes wrought everywhere over the past 250 years Culture on the peninsula continues to evolve with characteristic vibrancy Italy is not a museum To think of it as such as a disorganized yet phenomenally rich museum unchanging in its exhibits is to

misunderstand the nature of the Italian cultural condition and the writing of history itself **01 .Industrial Archaeology. MCM - Milan, Capital of the Modern Lorenzo Degli Esposti, 2021-04-15 MCM Milano Capital of the Modern edited by Lorenzo Degli Esposti is made up of texts and images from over 300 contributors from Europe and the US across three generations involved in the activities of the Padiglione Architettura in EXPO Belle Arti of Vittorio Sgarbi a programme by the Regione Lombardia hosted in the Grattacielo Pirelli during the EXPO 2015 They investigate the relationships between modern architecture the city of Milan Razionalismo reconstruction Tendenza Radical Design up to current research and the city in general between single and specific works and the large scale of the urban territory in the contradictions between architecture autonomy and its dependence on specific place and historical time The idea of MCM is that each capital of the Modern brings an original version of modernity in architecture in the specific Milanese case this kind of Modern is characterized by the simultaneous presence of abstract systematic and syntactic features and an ontological conception of both buildings and architectural and urban voids

Architecture in Motion Robert Kronenburg, 2013-08-15 The idea that architecture can be portable is one that grabs the imagination of both designers and the people who use it perhaps because it so often forecasts a dynamic and creative solution to the complex problems of our contemporary mobile society while at the same time dealing with issues of practicality economy and sustainability Architecture in Motion examines the development of portable transportable demountable and temporary architecture from prehistory to the present day From familiar vernacular models such as the tent mobile home and houseboat to ambitious developments in military and construction engineering all aspects of portable building are considered Building on his earlier

works *Portable Architecture and Houses in Motion* Robert Kronenburg compares traditional forms of building current commercial products and the work of innovative designers and examines key contemporary portable buildings to reveal surprising exciting and imaginative examples He explores the philosophical and technological issues raised by these experimental and futuristic prototypes By understanding the nature of transitory architecture a new ecologically aware design strategy can be developed to prioritise buildings that tread lightly on the earth and still convey the sense of identity and community necessary for an established responsible society This book provides a unique insight into this pivotal field of design

Architecture and the Public World Kenneth Frampton, 2024-01-25 This book brings together Kenneth Frampton's essays from the 1960s to today which epitomize his reflections on the historical theoretical entanglements of architecture with place the public realm cultural identity urban landscape and environment and the political question of the predicament of architecture in the new Millennium The essays explore Frampton's contention that architecture's imperative is to assume a significant responsibility for the edification and stewardship of the Arendtian public world One of the most theoretically sophisticated and politically committed architectural thinkers Frampton's work breaks emphatically with the limits and norms of much contemporary practice and restores a sense of richness and social consequence of architecture's unfinished project while offering abiding lessons not only for architecture but for social cultural and design criticism alike
