arrival of the Ottomans in 1517 to the present era Hardly any scholarly work has been written about the Copts during the Ottoman period Using court financial and building records as well as archives from the Coptic Orthodox Patriarchate and monasteries Magdi Guirguis has reconstructed the authority of the popes and the organization of the Coptic community during this time He reveals that the popes held complete authority over their flock at the beginning of the Ottoman rule deciding over questions ranging from marriage and concubines to civil disputes As the fortunes of Coptic notables rose they gradually took over the pope's role and it was not until the time of Muhammad Ali that the popes regained their former authority In the second part of the book Nelly van Doorn Harder analyzes how with the dawning of the modern era in the nineteenth century the leadership style of the Coptic popes necessarily changed drastically As Egypt's social political and religious landscape underwent dramatic changes the Coptic Church experienced a virtual renaissance and expanded from a local to a global institution Furthermore she addresses the political religious and cultural issues faced by the patriarchs while leading the Coptic community into the twenty first century Fashion, Women and Power Denise N. Rall, 2021-12-10 This book addresses the relationships between fashion women and power One of the constants within the book is to question the enduring relationship between women and dress and how these inform and articulate the ways in which women remain represented as either suitable or not for public office and their behaviour is informed through dress when they are in power The book critiques the interplays between politics power class race and expectation in relation to the everyday practice of getting dress and the more performative and symbolic function of dress as embodiment As never before women are in positions of political power and find themselves facing the maelstroms of mass media regarding their fashion their deportment and their right to govern The contributors offer a wide set of perspectives on women and their roles and their fashions when taking up powerful positions in Australia New Zealand United Kingdom and the United States From the United Kingdom the historical issues surrounding the movement towards rational dress for women seeking their rights to vote and exercise are interrogated The volume also explores viewpoints from East Asia such as the constricting role for common women upon entering the Imperial family in Japan From the United States come the troublesome media stories engulfing two significant American Democratic First Ladies Hillary Rodham Clinton and Michelle Obama From New Zealand the media reports on Prime Minister Jacinda Ardern upon her motherhood while serving in the office and on her clothing during the 2019 Christchurch massacre comprise a much needed contribution to the literature on women politics and dress Further the role of dress in politics broadly as a form of resistance will be examined in Australia from recent skirmishes over appropriate dress with ex prime minister Julia Gillard and other Australian female politicians The role of women and what their fashion selections mean continues via considerable debate during worldwide events Finally the theme of resistance and social media continues with an examination of protest dressing in the recent street battles in Hong Kong to how young Asian women have been influenced by the social media campaigns to encourage wearing the veil in Indonesia to Asian women negotiating
