in math in high school who then go on to mature into great engineers and scientists This book will help your student to stay in math longer and be more successful There is a separate book for each of six math classes 7th Grade Math Algebra I Geometry I Algebra II Math Analysis and Calculus There is a single Combo book with all six books in one Make sure you get the right book for your needs Nathaniel Max Rock an engineer by training has taught math in middle school and high school including math classes 7th Grade Math Algebra I Geometry I Algebra II Math Analysis and AP Calculus Max has been documenting his math curricula since 2002 in various forms some of which can be found on MathForEveryone com StandardsDrivenMath com and MathIsEasySoEasy com Max is also an AVID elective teacher and the lead teacher for the Academy of Engineering at his high school
