 P. Muthukumar, Dr. A.R.S. Kannan, Dr. K. Malini, This edited book focuses on the possible education responses that can be  
 implemented in future education times The impact of technology on learning and teaching is often at the forefront of  
 demands particularly from those who dictate the funding available to pay for technology within education systems This is not  
 an unreasonable request and there is merit in impact evaluations of educational technologies including emerging technologies  
 Besides it also shows how emerging technologies including Artificial Intelligence Blockchain Educational Games and Virtual  
 Reality Augmented Reality will reshape the future of education to provide efficient learning teaching experiences and  
 assessments Furthermore the book discusses innovative teaching and learning approaches e g the use of open educational  
 practices and peer to peer learning that can be applied in this rapidly moving technological era to maintain education  
 including in unconditional times Particularly new instructional methods such as game based learning should be designed  
 based on integrated technologies to provide an effective learning experience resulting in better learning outcomes Future  
 education should not solely focus on technology and psychology but also on the applied instructional methods as well as the  
 human touch to maintain authentic and effective learning experiences The book also discusses how teaching and learning  
 can be designed to meet the growing tendency of Open and Distance Education where thousands of learners can be taken the  
 same course from different cultures backgrounds and learning needs This book aims to establish itself through the published  
 books textbooks and research as a medium to provide guidelines and recommendations for different stakeholders including  
 policymakers educational designers teachers and students on how to enhance both learning and teaching experiences in the  
 future for better learning outcomes as well as how to maintain education in emergency times It also provides one step ahead  
 towards future education to prepare different stakeholders for the rapid evolution of education even in times of emergency  
 and difficult situations     **Multimedia** Tay Vaughan, 2001 A guide covering the details of multimedia building for designing
