Language Arts, Math, and Science in the Elementary Music Classroom Kim Milai, 2017. Language Arts, Math, and Science in the Elementary Music Classroom provides a practical guide to help music teachers incorporate elementary classroom subjects into their curriculum using STEAM (Science, Technology, Engineering, Arts, and Math) inspired strategies with added emphasis on social studies. It includes a complete elementary music curriculum for kindergarten, first, and second grades and has cross-referencing charts for regular elementary classroom teachers to find music activities for their classroom. Importantly, it shows teachers how to include the artistic processes of creating, performing, responding, and connecting in their lessons. These processes make up the new music standards featured in NAfME's new Core Arts Music Standards. In order to maximize comprehension, the book includes assessment tests, sheet music, worksheet templates, and brainstorming activities centered on using technology to enhance composition projects. Lesson plans are organized by the calendar year, each inspired by the seasons, American culture, and world culture. These lessons may be used as is or used to generate new curricula altogether.

Music and Movement Linda Carol Edwards, Kathleen M. Bayless, Marjorie E. Ramsey, 2009. This new edition presents music and movement education curricula for both preservice and inservice teachers. The best-selling core music and movement text provides a comprehensive and up-to-date survey of professional research while continuing to incorporate links between theory and practice. The authors of the text encourage teachers and caregivers to attend to the importance of research and contemporary thought regarding music and movement education. The approach of the book continues to be process, not product.
