won Le Mans and drag racing championships through the 1960s By the late 1960s the design was dated so Ford replaced the FE design with the 385 series also known as the Lima design which was more similar to the canted valve Cleveland design being pioneered at the same time It didn't share the 1960s pedigree of racing success but the new design was better in almost every way it exists via Ford motorsports offerings to this day In Ford Big Block Parts Interchange Ford expert and historian George Reid covers both engines completely Interchange and availability for all engine components are covered including cranks rods pistons camshafts engine blocks intake and exhaust manifolds carburetors distributors and more Expanding from the previous edition of High Performance Ford Parts Interchange that covered both small and big block engines in one volume this book cuts out the small block information and devotes every page to the FE Series and 385 big blocks from Ford which allows for more complete and extensive coverage p p1 margin 0 0px 0 0px 0 0px font 12 0px Arial Standard Catalog of Ford, 1903-2002 John Gunnell,2011-09-27 The Standard Catalog of Ford delivers all the details you need to enjoy your hobby and love your Ford Inside you'll find information about all of the legendary Fords built from 1903 2002 Mustangs Thunderbirds the Model T and A Falcons Fairlanes Skyliners and more This fact filled book provides collector market values for Fords made during 1903 2002 It also gives Ford collectors the data they need to identify buy restore and invest in collectable Fords including a current market price guide showing values in Old Cars Report Price Guide s comprehensive 1 to 6 grading scale complete year by year model listings with history and technical details thousands of photos for easy model identification and option lists engine information original pricing and production information
