Four patients in labor all request epidural analgesia to manage their pain at the same time. Which ethical principle is compromised when only one nurse anesthetist is on call? - answers-Justice

Justice refers to fairness and is used frequently in discussion regarding access to health care resources.

The patient tells the nurse that she is afraid to speak up regarding her desire to end care for fear of upsetting her husband and children. Which principle in the nursing code of ethics ensures that the nurse will promote the patient's cause? - answers-Advocacy

A nurse's ability to adequately advocate for a patient is based on the unique relationship that develops and the opportunity to better understand the patient's point of view.

The patient's son requests to view the documentation in his mother's medical record. What is the nurse's best response to this request?

a.

"I'll be happy to get that for you."

b.

"You will have to talk to the physician about that."

c.

"You will need your mother's permission."

d.

"You are not allowed to see it." - answers-c.

"You will need your mother's permission."

When people work together to solve ethical dilemmas, individuals must examine their own values. This step is crucial to ensure that

Building Health Sciences Library Collections Megan Inman, Marlena Rose, 2023-07-03 Selected as a 2025 Doody's Core Title Collection development is a cornerstone of librarianship and with the rapid pace that library materials are produced a thorough knowledge of collection development is more important than ever before. However with the myriad of choices available creating a meaningful collection can be a daunting task. Building and maintaining a health sciences library collection can be a challenge especially in scenarios where there is no dedicated collection services department or collection development librarian. Often in library school curriculum collection development strategies are discussed but specific examples of bibliographic sources may not be covered in detail particularly for health sciences resources. Many collection development books often discuss the creation of policies budgeting practices and usability. This book is a comprehensive reference guide for those who will be creating and curating their library health sciences collections. Moving beyond a traditional list of titles this guide will focus on several formats and areas. It features specific bibliographic information for top resources for a variety of subject areas and in a variety of formats. This book is designed for all librarians whether new or experienced. Each chapter of this title does a deep dive into an area of health sciences library collection building as well as covering how to maintain a current collection. This book is designed to provide readers with a resource to lean on in determining the best bets in providing their users with health sciences resources to support curriculum practice and other user needs. Readers who are interested in gleaned techniques for maintaining their health sciences library collection will also benefit from this how to guide as it details the deselection process. Every health sciences librarian no matter their experience can benefit from this reference guide.
