International Practices to Promote Budget Literacy Harika Masud, Helene Pfeil, Sanjay Agarwal, Alfredo Gonzalez Briseno, 2017-08-09 Budget literacy is defined as the ability to read decipher and understand public budgets to enable and enhance meaningful citizen participation in the budget process. It is comprised of two main parts: i) a technical understanding of public budgets including familiarity with government spending, tax rates, and public debt; and ii) the ability to engage in the budget process comprising of practical knowledge on day to day issues as well as an elementary understanding of the economic, social, and political implications of budget policies, the stakeholders involved, and when and how to provide inputs during the annual budget cycle. Given that no international standards or guidelines have been established for budget literacy education to date, this book seeks to address this gap by taking stock of illustrative initiatives promoting budget literacy for youth in selected countries. The underlying presumption is that when supply side actors in the budget process (governments) simplify and disseminate budget information for demand side actors (citizens), this information will then be used by citizens to provide feedback on the budget. However, since citizens are often insufficiently informed about public budgets to constructively participate in budget processes, one way to empower them and to remedy the problem of budget illiteracy is to provide budget literacy education in schools to youth, helping them evolve into civic minded adults with the essential knowledge needed for analyzing their government's fiscal policy objectives and measures, and the confidence and sense of social responsibility to participate in the oversight of public resources. This book elaborates on approaches, learning outcomes, pedagogical strategies, and assessment approaches for budget literacy education and presents lessons that are relevant for the development, improvement, or scaling up of budget literacy initiatives.

Handbook of Research on Teacher Practices for Diverse Writing Instruction Hodges, Tracey S., 2022-05-20 The art and practice of writing is complex and multidimensional; students often apply unique writing styles. As such, educators must apply focused teaching methods to nurture these unique forms of writing. Educators must stay up to date with the practices for diverse writing instruction in order to best engage with a diverse classroom. However, resources related to writing typically do not focus on the depth and breadth of writing, and there is a need for a resource that offers a comprehensive look at diverse writing instruction research. The Handbook of Research on Teacher Practices for Diverse Writing Instruction provides a rich discussion of the issues, perspectives, and methods for writing instruction currently in use, with an added lens focusing on diversity and equity. It provides unique coverage on the topic of writing instruction for practical implementation within the classroom setting. Covering topics such as student motivation, curriculum development, and content area instruction, this major reference work is an essential resource for preservice teachers, faculty, and administration of K-12 and higher education, academic libraries, government officials, school boards, researchers, and academicians.
