Die Geskiedenis van Televisie

Ons kan nie sê dat een spesifieke persoon televisie uitgevind het nie omdat verskeie mense tot die ontwikkeling daarvan bygedra het. John Logie Baird was egter een van die besliste baanbrekers op die gebied van televisie. Op 2 Oktober 1925 het hierdie Skotse ingenieur die besoekers in 'n Londense winkel vermaak deur die beeld van 'n bulksprek-pop op 'n skerm te wys. Die uitvinder was gou beroemd.

Die woord televisie is 'n samestelling van beide Grieks en Latyn. "Tele-" is Grieks vir "ver", en "-isie" kom van die Latynse "visio", wat beteken "visie" of "sig".

Die eerste gereelde televisieprogramme is vanaf 22 Maart 1935 in die Duitse hoofstad Berlyn uitgesaai. Drie keer per week is tussen 20:30 en 22:00 regstreekse programme uit die ateljee van die Berlynse "Haus des Rundfunks" en dele uit

Grade 7 Afrikaans Answers 2014:

Afrikaans Linguistics WAM Carstens, Nerina Bosman, 2024-10-03 Offering a contemporary exploration of the multifaceted landscape of Afrikaans linguistics *Afrikaans Linguistics Contemporary Perspectives* marks a seminal contribution to the field. This volume for the first time presents accessible insights into diverse linguistics subdisciplines inviting international scholars to familiarise themselves with Afrikaans language studies. Throughout much of the late 19th and 20th centuries Afrikaans scholars predominantly communicated in Afrikaans resulting in a significant gap in the dissemination of knowledge about the language. The chapters in this book written by prominent South Africans as well as international scholars working in the field of Afrikaans serve as a pivotal bridge by providing essential historical context while also paying attention to the development of Afrikaans linguistics during the 20th century. The primary focus remains on illuminating 21st century research trajectories offering a comprehensive snapshot of contemporary scholarship in Afrikaans linguistics. **Language and Power in Post-Colonial Schooling** Carolyn McKinney, 2016-07-15 Critiquing the positioning of children from non dominant groups as linguistically deficient this book aims to bridge the gap between theorizing of language in critical sociolinguistics and approaches to language in education. Carolyn McKinney uses the lens of linguistic ideologies teachers and students beliefs about language to shed light on the continuing problem of reproduction of linguistic inequality. Framed within global debates in sociolinguistics and applied linguistics she examines the case of historically white schools in South Africa a post colonial context where political power has shifted but where the power of whiteness continues to provide new insights into the complex relationships between language and power and language and subjectivity. Implications for language curricula and policy in contexts of linguistic diversity are foregrounded. Providing an accessible overview of the scholarly literature on language ideologies and language as social practice and resource in multilingual contexts *Language and Power in Post Colonial Schooling* uses the conceptual tools it presents to analyze classroom interaction and ethnographic observations from the day to day life in case study schools and explores implications of both the research literature and the analyses of students and teachers discourses and practices for language in education policy and curriculum. *Multilingual Education in South Asia* Lina Adinolfi, Usree Bhattacharya, Prem Phyak, 2022-05-17 Spanning scholarly contributions from India Nepal Bangladesh Pakistan and Sri Lanka this edited volume seeks to capture and elucidate the distinct challenges approaches and possible solutions associated with interpreting adapting and applying language in education policies in a range of linguistically complex teaching and learning environments across South Asia. Centring on the ground perspectives of scholars practitioners pupils parents and the larger community the volume offers new insights into one of the most complex populous and diverse multilingual educational contexts in the world. Language in education policies and practices within this setting represent particularly high stakes issues playing a pivotal role in determining access to literacy thereby forming a critical pivot in the reproduction of educational inequality. The broad aim of the collection is thus to highlight the pedagogical

practical ideological and identity related implications arising from current language in education policies in this region with the aim of illustrating how systemic inequality is intertwined with such policies and their associated interpretations Aimed at both academics and practitioners whether researchers and students in the fields of education linguistics sociology anthropology or South Asian studies on the one hand or language policy advisors curriculum developers teacher educators teachers and members of funding bodies aid providers or NGOs on the other it is anticipated that the accounts in this volume will offer their readership opportunities to consider their wider implications and applications across other rich multilingual settings be these local regional national or global **Tone Orthography and Literacy** David Roberts, Stephen L.

Walter, 2021-07-15 This book presents the results of a series of literacy experiments in ten Niger Congo languages representing four language families and spanning five countries It asks the research question To what extent does full tone marking contribute to oral reading fluency comprehension and writing accuracy and does that contribution vary from language to language One of the main findings is that the ethno literacy profile of the language community and the social profile of the individual are stronger predictors of reading and writing performance than are the linguistic and orthographic profiles of the language Our data also suggest that full tone marking may be more beneficial for less educated readers and those with less experience of L1 literacy The book will bring practical help to linguists and literacy specialists in Africa and beyond who are helping to develop orthographies for tone languages It will also be of interest to cognitive psychologists exploring the reading process and researchers investigating writing systems **Language and Social Justice** Kathleen C. Riley, Bernard C. Perley, Inmaculada M. García-Sánchez, 2024-02-22 Language whether spoken written or signed is a powerful resource that is used to facilitate social justice or undermine it The first reference resource to use an explicitly global lens to explore the interface between language and social justice this volume expands our understanding of how language symbolizes frames and expresses political economic and psychic problems in society thus contributing to visions for social justice Investigating specific case studies in which language is used to instantiate and or challenge social injustices each chapter provides a unique perspective on how language carries value and enacts power by presenting the historical contexts and ethnographic background for understanding how language engenders and or negotiates specific social justice issues Case studies are drawn from Africa Asia Europe North and South America and the Pacific Islands with leading experts tackling a broad range of themes such as equality sovereignty communal well being and the recognition of complex intersectional identities and relationships within and beyond the human world Putting issues of language and social justice on a global stage and casting light on these processes in communities increasingly impacted by ongoing colonial neoliberal and neofascist forms of globalization Language and Social Justice is an essential resource for anyone interested in this area of research [This Sporting Life](#) Robert Colls, 2020-08-28 Why did killing a fox mean liberty What did parish revels have to do with the Peterloo Massacre What did animal cruelty have to do with the English constitution What did the Factory Acts

mean for modern football In *This Sporting Life* Robert Colls explains sport as one of England's great civil cultures The lived experiences of people from all walks of life are reclaimed to tell England's history through its great sporting cultures from the horseback pursuits of the wealthy and politically connected to the street games in working class neighbourhoods which needed nothing but a ball It observes people at play describes how they felt and thought carries the reader along to a match or a hunt or a fight draws out the sounds and smells of humans and animals showing that sport has been as important in defining British culture as gender politics education class and religion **South African national bibliography** ,1995
