Some of the authors have worked with terrorists thus grounding their reflections and insights in direct clinical contact with these individuals Understanding the motivations of the perpetrators includes elucidation of the wider group dynamics of minority populations where the perpetuation of violence that is seen as terrorism may be viewed by its perpetrators as a justifiable response to collective experiences of subjugation humiliation and injustice suffered over generations Understanding such perspectives is not colluding with the aggressors but rather it may contribute to interventions at both individual and global levels that attempt to break the deadly cycle of violence This book was originally published as two special issues of Psychoanalytic Psychotherapy **Medicare and Medicaid Guide, Transfer Binder** ,1981-07
