Anti-Spam Measures Guido Schryen, 2007-08-10 I am not sure about the meaning of a preface neither about its convenience or needlessness nor about the addressees However I suppose that it is expected to tell a part of the story behind the story and that it is read by at least two types of readers The first group consists of friends colleagues and all others who have contributed to the opus in any way Presumably most of them like being named in the preface and I think they deserve this attention because they have accompanied the road to the opus and are thus part of the whole These second group comprises those academic fellows who are in the same boat as I am in terms of preparing or having even finished their doctoral or habilitation thesis All others be it that they generally like reading prefaces or expect hints with regard to the reading of this book are likewise welcome to reading this preface This book contains most parts of my habilitation thesis which was accepted by the Faculty of Business and Economics of the RWTH Aachen University Germany Unfortunately to avoid possible copyright violation I had to omit some paragraphs of the proposed infrastructure framework presented in Chapt 6 If you are interested in the full version of this specific chapter please contact me schryen gmx net and I will be happy to provide you an electronic copy Usually a thesis represents a loosely coupled collection of published papers cumulative thesis or a classic monograph

House of Commons - Culture, Media and Sport Committee: Nuisance Calls: Volume I - HC 636 Great Britain: Parliament: House of Commons: Culture, Media and Sport Committee, 2013-12-05 Nuisance calls particularly unwanted marketing calls and text messages are a bane to millions A significant underlying feature giving rise to nuisance calls is the unfair processing of personal data something that is proscribed by the Data Protection Act 1998 The Information Commissioner already has powers to deal with this he should use them far more Where regulation fails technology has a place with a number of useful products available and standard services like caller display can also help Caller display should be a free service and the Committee regrets BT s decision to charging explicitly for caller display Some nuisance callers withhold their numbers or hide behind a false one Nuisance text messages can be simply reported by forwarding them to a dedicated short code number 7726 and a similar facility for nuisance calls to landlines is long overdue and would provide useful intelligence to regulators There should be a single online complaints form Given that many people do not have internet access there should also be a single nuisance calls helpline The legal threshold for the Information Commissioner to take enforcement action under the Privacy and Electronic Communications EC Directive Regulations 2003 must also be lowered A

single nuisance calls regulator might have superficial appeal but a single point of contact for customers coupled with more effective coordination between regulators behind the scenes is both more achievable and desirable Above all organisations closer to the source of marketing calls like the Direct Marketing Association
