The diagnostics landscape for sexually transmitted infections World Health Organization, 2023-07-20. This document highlights the diagnostics available now to support scale up and expanded access to screening to meet the growing testing demands in LMICs. The document is intended to compliment the WHO STI Laboratory Manual. The focus of this landscape is on the technologies, tests, platforms, and systems for use in resource-limited settings commercially available at the time of publication for syphilis, chlamydia, gonorrhoea, trichomoniasis, mycoplasma, herpes, and HPV. This document does not provide market assessments or pipelines for new technologies but recognizes the need for additional complimentary documents to support decision makers in prioritizing STI testing in LMICs. The target audience for this document is broad but includes mainly national program managers.
