References and Resources Index **The Education Invasion** Joy Pullmann, 2017-03-14 Most Americans had no idea what Common Core was in 2013 according to polls But it had been creeping into schools nationwide over the previous three years and children were feeling its effects They cried over math homework so mystifying their parents could not help them even in elementary school They read motley assortments of informational text instead of classic literature They dreaded the high stakes tests in unfamiliar formats that were increasingly controlling their classrooms How did this latest and most sweeping reform of American education come in mostly under the radar Joy Pullmann started tugging on a thread of reports from worried parents and frustrated teachers and it led to a big tangle of history and politics intrigue and arrogance She unwound it to discover how a cabal of private foundation honchos and unelected public officials cooked up a set of rules for what American children must learn in core K 12 classes and how the Obama administration pressured states to adopt them Thus a federalized education scheme took root despite legal prohibitions against federal involvement in curriculum Common Core and its testing regime were touted as an absolute game changer in public education yet the evidence so far suggests that kids are actually learning less under it Why then was such a costly and disruptive agenda imposed on the nation's schools Who benefits And how can citizens regain local self governance in education so their children's minds will be fed a more nourishing intellectual diet and be protected from the experiments of emboldened bureaucrats The Education Invasion offers answers and remedies Effective Grading Practices for Secondary Teachers Dave Nagel, 2015-03-04 Enacting an effective grading system that emphasizes the secondary student's learning process The book is written in an articulate and direct format that highlights successful practices programs and activities that support effective implementation of changing grading systems Providing research of grading reforms that were enacted by an active teacher dialogue with the student's perspective taken into consideration Addressing the shortcomings of no failure policies in the overall learning process Researching perception of effort limitations and the impact of grades given to the student by an instructor Considering restraints of grading policies due to vagueness and constrictive focus **Resources in Education** , 2001-10 **Students of Color and the Achievement Gap** Richard R. Valencia, 2015-03-05 Students of Color and the Achievement Gap is a comprehensive landmark analysis of an incontrovertible racialized reality in U S K 12 public education the relentless achievement gap between low socioeconomic students of color and their economically advantaged White counterparts Award winning author and scholar Richard Valencia provides an authoritative and systemic treatment of the achievement gap focusing on Black and Latino/Latina students He examines the societal and educational factors that help to create and maintain the achievement gap by drawing from critical race theory an asset based perspective and a systemic inequality approach By showing how racialized opportunity structures in society and schools ultimately result in racialized patterns of academic achievement in schools Valencia shows how the various indicators of the achievement gap are actually symptoms of the societal and school quality gaps Following each of these concerns Valencia provides a number of reform suggestions that

can lead to systemic transformations of K 12 education Students of Color and the Achievement Gap makes a persuasive and well documented case that school success for students of color and the empowerment of their parents can only be fully understood and realized when contextualized within broader political economic and cultural frameworks *The Handbook of TESOL in K-12* Luciana C. de Oliveira, 2022-04-04 The first handbook to explore the field of Teaching English to Speakers of Other Languages in elementary and secondary education K 12 The number of students being educated in English has grown significantly in modern times globalization immigration and evolving educational policies have prompted an increased need for English language learner ELL education The Handbook of TESOL in K 12 combines contemporary research and current practices to provide a comprehensive overview of the origins evolution and future direction of Teaching English to Speakers of Other Languages at the elementary and secondary levels K 12 Exploring the latest disciplinary and interdisciplinary issues in the field this is a first of its kind Handbook and contributions are offered from a team of internationally renowned scholars Comprehensive in scope this essential Handbook covers topics ranging from bilingual language development and technology enhanced language learning to ESOL preparation methods for specialist and mainstream teachers and school administrators Three sections organize the content to cover Key Issues in Teaching ESOL students in K 12 Pedagogical Issues and Practices in TESOL in K 12 Education and School Personnel Preparation for TESOL in K 12 Satisfies a need for inclusive and in depth research on TESOL in K 12 classrooms Presents a timely and interesting selection of topics that are highly relevant to working teachers and support staff Applies state of the art research to real world TESOL classroom settings Offers a balanced assessment of diverse theoretical foundations concepts and findings The Handbook of TESOL in K 12 is an indispensable resource for undergraduate and graduate students researchers and scholars and educators in the field of Teaching English to Speakers of Other Languages in elementary and secondary education
