Spanish recipes for everyday cooking Alfonso López Alonso, More than 100 easy recipes based on Spanish and Mediterranean cuisine for a healthy and diverse diet This book brings together the best dishes from recetasderechupete com one of the most popular recipe blogs in Spanish This title features 107 easy recipes with step by step instructions colour photos of every recipe and lively personal anecdotes FOREWORD I could tell you that this is a wonderful book I could also tell you that this book is full of marvelous recipes illustrated with mouthwatering pictures which would make you dream of savoring these dishes one day I could comment on how well explained all the tricks and techniques needed to cook these recipes are I could do all this and I would not be lying But instead I rather talk about the author A guy I liked from the minute I met him He is full of good vibes and has always helped me and other gastro bloggers in every way he could Alfonso is one of those odd people who likes everyone who does not fit the stereotype of a cautious Galician since he is bold and direct and on

top of everything he is no dummy I also deeply admire him for creating one of the best blogs in Spain Recetas de Rechupete You might be thinking that you couldn't care less about all this and that the personal qualities of the author are not necessary when judging the recipes in a cookbook This could be true about a conventional cookbook but never about a blogger's cookbook The main value in any blog is that it is personal no one else could have written it And when it comes to culinary blogs it is important that they reflect the origins experiences tastes and the obsessions of the person that is driving it Both Recetas de Rechupete and the book are 100% Alfonso they ooze earnestness and frankness simplicity closeness but above all the good food enthusiasm put into it by the author I would love to have my own Alfonso preparing all these meals for me enjoying his conversation But since this is impossible at least until the electronic author is invented I will just have to resign myself to having the book in my computer and reverting to it every time I am in the mood for an everyday meal Mikel Lopez Iturriaga El Comidista Blogger and journalist at elpais.com

The Food Pusher's Cookbook Rick Melfi, 2011-06 It wasn't until I was a student at the Culinary Institute of America in the late 1970s that I first realized that growing up as a first generation Italian American family in the Bronx and New Jersey wasn't as typical as I had thought My parents and their parents were all born and raised in Italy Throughout my youth and beyond my father and mother referred to their five children four boys and a girl by the number in the order of which we were born To this day my mother still occasionally refers to me as Number Two Son But when it came to hanging around the kitchen I was definitely the number one pest I was the little punk kid always by my mother's side as she was cooking or baking I would jockey for position wherever my mother moved stand on a kitchen chair up against the stove and otherwise constantly be in her way as I tried to get a better look at whatever was being done Same when either of the grandmothers Nona Lisa or Grandma Melfi or other relatives were there Maybe it was something in the water around Pisa but I suspect it's a genetic condition For my mother her mother cousins aunts and countless generations before them in this food fueled blood line the world revolved around the kitchen and dining room table Life was not good unless family friends or anyone close to the dinner table was fed
