Vogel, 2002-07-15 Offering a unique and original perspective on the rise and fall of indigenous states of southern Zambezia The Zimbabwe Culture analyzes the long contentious history of the remains of the remarkable cyclopean masonry ranging from mighty capitals of traditional kings to humble farmsteads Forming a cornerstone of the geographical lore of Africa in the seventeenth and eighteenth centuries debate on the origins development and collapse of the Zimbabwe culture has never ceased and with increasing archaeological research over the twentieth century has become more complex Thoroughly examining the growth and decline of pre colonial states on the entire Zimbabwean Plateau and southern Zambezia Dr Pikirayi has contributed tremendously towards the archaeological understanding of this extraordinary culture The Zimbabwe Culture is essential reading for all students and avocationalists of African archaeology history and culture History A-Level (ZIMSEC) Past Exam Questions and Model Answers David Chitate ,2024-06-06 This book contains the most comprehensive question bank and model answers for ZIMSEC A Level History exam questions It also includes syllabus review notes and exercises History subject Examiners provide observations and tips and point out common errors that students make when answering questions If you use this book faithfully it will be almost impossible for you to fail Use this book and earn yourself a Grade A in History A History of Zimbabwe, 1890-2000 and Postscript, Zimbabwe, 2001-2008 Chengetai J. M. Zvobgo, 2009-10-02 This study combines in one volume the history of Zimbabwe from the advent of British settlers in 1890 to 2000 including women s rights and human rights in Zimbabwe It is a political social and economic history The Postscript examines the major developments in Zimbabwe from 2001 to 2008 The two previous major studies on the history of Zimbabwe The Past Is Another Country by Martin Meredith London Andre Deutsch 1979 and The Road to Zimbabwe 1890 1980 by Anthony Verrier London Jonathan Cape 1986 are now out of date This volume brings the historical study of Zimbabwe almost up to the present day **Crafting Identity in Zimbabwe and Mozambique** Elizabeth MacGonagle, 2007 Crosses conventional theoretical temporal and geographical boundaries to show how the Ndau of southeast Africa actively shaped their own identity over a four hundred year period *The International Journal of African Historical Studies* ,1998 *Farmers, Kings, and Traders* Martin Hall, 1990-10-15 In this overview of the origins and development of black societies in southern Africa Martin Hall reconstructs the region s past by thoroughly examining both the archaeological and the historical records Beginning with the gradual southward movement of the earliest farmers nearly two thousand years ago Hall tracks the emergence of precolonial states such as Mapungubwe and Great Zimbabwe Farmers Kings and Traders concludes with the devastating effects of colonialism Through a close reading of the accounts of early travelers colonialists archaeologists and historians Hall places in context the often contradictory histories that have been written of this region The result is an illuminating look at how ideas about the past have themselves changed over time **African Kingdoms** Linda Hill, AI, 2025-03-19 African Kingdoms challenges conventional often Eurocentric

views by exploring the sophisticated political economic and military systems of pre colonial African societies Delving into major kingdoms like Great Zimbabwe and the Ashanti Empire the book reveals how these societies were active agents in shaping their own destinies and influencing global events It highlights that many of these kingdoms possessed complex governance structures and extensive trade networks demonstrating their significant contributions to global civilization often overlooked in traditional histories This exploration unfolds chapter by chapter beginning with an introduction that sets the stage by addressing common misconceptions Subsequent chapters provide case studies analyzing each kingdom s political structure economic systems and military organization The book s research relies on diverse sources including archaeological evidence oral traditions and primary accounts ensuring a balanced portrayal By prioritizing African voices African Kingdoms offers a unique and more accurate perspective on pre colonial African history The book culminates by synthesizing its findings to assess the overall impact of African kingdoms on regional and global history It emphasizes their contributions to trade diplomacy and cultural exchange promoting a more nuanced understanding of the African past and its relevance to global history This approach provides valuable insights into alternative models of governance and development challenging stereotypes and fostering a deeper appreciation of African heritage

How Europe Underdeveloped Africa Walter Rodney, 2018-10-23 How Europe Underdeveloped Africa is an ambitious masterwork of political economy detailing the impact of slavery and colonialism on the history of international capitalism In this classic book Rodney makes the unflinching case that African maldevelopment is not a natural feature of geography but a direct product of imperial extraction from the continent a practice that continues up into the present Meticulously researched How Europe Underdeveloped Africa remains an unshakably relevant study of the so called great divergence between Africa and Europe just as it remains a prescient resource for grasping the the multiplication of global inequality today In this new edition Angela Davis offers a striking foreword to the book exploring its lasting contributions to a revolutionary and feminist practice of anti imperialism

People Making History Peter S. Garlake, Andre Proctor, T. Barnes, 1985 Two titles complete the four part series of African history told by Africans from an African perspective Recommended for schools in Zimbabwe the series represents a reclaiming of history from the distortions of Eurocentric teaching Book 3 covers pre capitalist modes of production in Africa early merchant capitalism in Africa growth of industrial capitalism in Europe revolution and socialist transformation and capitalism in crisis Readers are encouraged to think critically and read the source material included In addition to giving attention to the great people in history the book focuses attention on the ordinary men and women peasant farmers workers mothers and children The people s voice is heard through direct quotations Book 4 covers colonialism and resistance Zimbabwe under colonial rule revolution and transformation and world ant imperialist struggles [Gender, Politics and Land Use in Zimbabwe 1980ñ2012](#) Mafa, Onias, Gudhlanga, Enna S., 2015-10-19 The agrarian reform dynamics in southern Africa have to be understood within the framework of colonial land policies and legislation that were designed essentially to

expropriate land and natural resource property rights from the indigenous people in favour of the white settlers Colonial land policies institutionalised racial inequity with regard to land although conditions are not homogeneous there are broad themes that cut across the southern Africa region Colonialism dispossessed and impoverished the people by taking away the most productive lands Neoliberal globalization has undermined the people's well being through direct influences on agriculture and rural economies in conjunction with policies promoted by national governments and international agencies Another shared feature is to be found in the high rates of unemployment poor returns to small scale agriculture lack of access to social services such as health and education all of which serve to erode existing livelihood activities and perpetuate relative and absolute poverty in rural areas This comparative study on Zimbabwe's agrarian reforms may provide countries such as South Africa and Namibia with valuable lessons as they attempt their own land reforms Conflicts between colonialists and the indigenous people in the then Rhodesia centred mainly on the land question This inequitable distribution of land resulted in Africans waging liberation struggles in order to reclaim their land from the colonialists In most post colonial countries calls have been made for land redistribution as a way of redressing colonial injustices in land tenure systems The process of reclamation of land and redistributing it to the indigenous people is fraught with problems and has resulted in the present day land crisis in many parts of Africa and other continents These are some of the issues this book examines attempts to understand and explain from a gender perspective Gender relations are viewed in terms of land use and ownership in pre colonial colonial and post colonial Zimbabwe These socially constructed roles have been found to be unequal in terms of power and decision making It is argued that lessening of social inequalities between men and women reduces poverty raises farm efficiency and improves natural resource management The book emphasizes that once women are empowered the quality of life of their households improves

Natural Resource-Based Conflicts in Rural Zimbabwe Joshua

Matanzima, Patience Chadambuka, Kirk Helliker, 2024-08-02 This book investigates the range of conflicts over land and other natural resources in contemporary Zimbabwe considering the different forms these conflicts take and the ensuing outcomes Zimbabwe is a country rich in natural resources including land wildlife minerals and water resources These resources are integral to the formal and informal livelihoods of most Zimbabweans as well as supporting many key industries Wildlife land and water resources are also embedded in indigenous knowledge systems religious beliefs and rituals in many rural communities forming an important part of people's identity and sense of belonging However this book demonstrates the ways in which rural communities are being denied access to these resources and being displaced by extractive companies and the government Their response is often to turn to violence to try to reclaim their lands Drawing on original empirical research from different conflicts across Zimbabwe the book also considers the issue in the context of problems such as climate change human wildlife conflicts and politico economic crises This book will be useful to policy makers students conservationists and academics across the fields of sociology human geography development political science and environment studies

Obvious Vengeyi, Joachim Kügler, 2013 This book was passed as a PhD thesis at Bayreuth University Germany The author challenges African Biblical scholars and Christian leaders to premise Biblical interpretation on the experiences of the often neglected underclasses The author argues that from a comparative historical cultural and material methodological point of view the experiences of the Zimbabwean underclasses whose collective ordeal is represented by the experiences of domestic workers are strikingly similar to those suffered by slaves among other underclasses in the biblical world In the same way religion was appropriated by the elite to validate oppression of the underclasses in the biblical world the author shows that since the colonial era Christianity in Africa through biblical interpretation among many other tactics has been an influential force on the side of the dominant class to advance their racial class and gender interests To date in Zimbabwe for example the Bible and religion in general is manipulated by the dominant minority to justify and entrench the exploitation of the majority underclasses On the other hand the author observes that the history of ancient Israel Roman colonial Palestine and colonial Zimbabwe evidences that when religion is appropriated and or the Bible is read and interpreted from the historical cultural and material conditions of the underclasses it can be a valuable resource not only for their mobilization to overthrow oppressive systems but also for justifying their resistance tactics Aluta Continua The Struggle goes on **General History**
