Kohen-Gordon,2001-01-20 *La Concierge* is a diary like book of fictionalized life like figures around whom revolve other individuals permanent presences or passersby engaged in their daily trivial or not so trivial activities It somewhat reminds one of books written by the French author Fran oise Sagan who became an instant success with her triad *Bonjour Tristesse* *Un Certain Sourire* and *Aimez vous* Brahms subtle character novels encompassing young girl diaries experiences night scenes of Sorbonne students endless

sequences of dance spots and nightclubs until the wee hours love triangles and quadrangles The book is a mini version of Balzac's or Saroyan's *Comedie Humaine* and *Human Comedy* It is a sort of candid camera of the heart and modern mores more similar to camcorder images The collection of characters met as they come to pass around the Concierge desk also reminiscent of XVIIIth century's La Bruyere's *Caracteres* Characters With parading personages from the most attractive and personable to the exquisitely obnoxious the space around the Concierge desk is a living observation laboratory of psychological images and situations In this multiplicity of scenarios somehow similarly to La Bruyere's work the unifying thread is the master idea to expose the ridiculous and the false which in daily activities despite their meaninglessness arouse much passion and controversy

The Courtship Novel, 1740-1820 Katherine Sobba Green, 2021-10-21 The period from her first London assembly to her wedding day was the narrow span of autonomy for a middle class Englishwoman in the eighteenth and early nineteenth centuries For many women as Katherine Sobba Green shows the new ideal of companionate marriage involved such thoroughgoing revisions in self perception that a new literary form was needed to represent their altered roles That the choice among suitors ideally depended on love and should not be decided on any other grounds was a principal theme among a group of heroine centered novels published between 1740 and 1820 During these decades some two dozen writers most of them women published such courtship novels Specifically aiming them at young women readers these novelists took as their common purpose the disruption of established ideas about how dutiful daughters and prudent young women should comport themselves during courtship Reading a wide range of primary texts Green argues that the courtship novel was a feminized genre written about by and for women She challenges contemporary readers to appreciate the subtleties of early feminism in novels by Eliza Haywood Mary Collyer Charlotte Lennox Samuel Richardson Frances Brooke Fanny Burney Mary Wollstonecraft Jane West Mary Brunton Maria Edgeworth and Jane Austen to recognize that these courtship novelists held in common a desire to reimagine the subject positions through which women understood themselves

The Extraordinary Work of Ordinary Writing Jennifer Sinor,2002-11-13 Krutch s trenchant observations about life prospering in the hostile environment of Arizona s Sonoran Desert turn to weighty questions about humanity and the precariousness of our existence putting lie to Western denials of mind in the lower forms of life Let us not say that this animal or even this plant has become adapted to desert conditions Let us say rather that they have all shown courage and ingenuity in making the best of the world as they found it And let us remember that if to use such terms in connection with them is a fallacy then it can only be somewhat less a fallacy to use the same terms in connection with ourselves

Feeding Barcelona, 1714-1975 Montserrat Miller,2015-01-12 The food markets of Barcelona host thousands of customers daily from tourists eager to sample

fresh fruits and grilled seafood to neighborhood cooks in search of high quality ingredients While other countries experienced major shifts away from the public market model in the twentieth century Barcelona s food markets remained fundamental to the city s identity economy and culture Montserrat Miller s *Feeding Barcelona 1714 1975* examines the causes behind the extraordinary vibrancy and tenacity of the Barcelonan market system Miller argues that recurrent revolutionary uprisings in Barcelona beginning in the mid eighteenth century forced ongoing collaboration between the public and private sectors to ensure adequate and effective food distribution Municipal support permitted small scale food sellers in Barcelona to survive in a period more commonly characterized by increasing capitalization in food retail while the importance of food markets to Barcelona s social networks enhanced vendors ability to recognize and adapt to changing customer demands In addition a high number of stalls owned by women contributed both to the financial well being of vendor families and to the sociability patterns that placed neighborhood food markets at the center of daily life in the city The shared commitment of vendors shoppers and government officials to a market model of food sales created the lasting and unique market system that persists in Barcelona to this day Drawing from extensive archival research and numerous interviews with individuals at all levels of the market system *Feeding Barcelona 1714 1975* is the first detailed history of the historical and social influences that create urban food markets
