Applebee,1990 Based on two national assessments of the writing proficiency of representative samples of students in grades 4 8 and 11 conducted during the school years ending in 1984 and 1988 this report assesses the informative persuasive and imaginative writing performance of the nation s students and tracks changes in performance over time The first three chapters of the report describe student performance on the informative persuasive and imaginative writing tasks included in the writing trend assessments based on the results of the primary trait and holistic analyses The fourth chapter summarizes trends in average task accomplishment for the nation and various demographic subpopulations In the fifth chapter trends in students grammar punctuation and spelling are discussed The sixth chapter discusses factors that appear to be related to writing performance such as students instructional experiences and home environment The report concludes that despite some progress on some tasks students writing performance across tasks remains low and has changed little across time The report also finds that the extent to which students at all grade levels value writing use it in their own lives and engage in writing process activities remains quite limited A procedural appendix and an appendix of data are attached RS *Executive Summary of the NAEP 1992 Mathematics Report Card for the Nation* ,1993 **Emerson's Place** C.C. The Challenge of Differentiation in Euro-Mediterranean Relations Esther Barbé,Anna Herranz-Surrallés,2013-09-13 The tension between the aim of creating sustainable multilateral region building dynamics and the need to find more differentiated and flexible forms of cooperation has been ever present in Euro Mediterranean relations The proliferation of different and partially overlapping initiatives in recent years the Euro Mediterranean Partnership the European Neighbourhood Policy and the Union for the Mediterranean is a plain expression of this tension The 2011 episodes of regime change in the Arab world have once again placed the debate about differentiation in EU s relations with Southern and Eastern Mediterranean Countries at the top of the Union s foreign policy agenda This book contributes to theoretical and practical debates on whether differentiation processes can aid or hinder policy convergence processes and region building efforts more widely The contributions to this collection assess the actual significance and consequences of differentiation in Euro Mediterranean relations through sector specific in depth analyses covering issue areas as varied as environmental policy migration foreign and defence policy trade energy civil protection and democracy promotion The particular angle and comprehensive analysis of this book will make it of great interest for both scholars and policy makers alike in a moment when Euro Mediterranean are in need of a thorough rethink This book was based on a special issue of Mediterranean Politics
