

GRADE 9 - Trimester 3: FROM SCHOOL TO WORK

SCOPE & SEQUENCE TEMPLATE AND PLANNING GUIDELINES

ADEC FOCUS QUESTION: How do I think about my future?					
Explore: - What are my skills and interests? - How do I make good choices? - How do I prepare for the future? <i>ALL class work and activities MUST relate to this theme. Even spelling, vocabulary and grammar work should be based around the "LOOKING BACK" theme. Grammar exercises are based on the language features of each text type and taught ONLY in the context of the text type and the theme.</i>					
TEXT TYPES: Discussion, Information, Procedure					
See ADEC Text Type Scaffolds below – note the language features. - Language features (grammar) <i>MUST</i> be taught in the context of the text type – not in isolation. - While teaching students to write in each text type: - introduce each language feature in a logical way that aligns with the particular stage of the inquiry. - ensure focus questions align with the text type being studied - allow time & opportunities for practice. - differentiate task, outcome, levels of support according to student learning needs - Provide text type samples. Ask students to identify features – what do you notice about this type of writing compared to eg. Recount? <u>Then</u> teach them how to use the particular language feature in their own writing.					
Planning for Community Links & Parent Involvement (KPI 4.1 and 4.2). Possibilities & Suggestions:					
- Guest speakers: employees from a range of workplaces - Excursions: various workplaces, universities, HCTs - Community information: _____ - Parent Involvement: _____ - Authentic audiences : _____ <i>Ensure timing of these events ties in with the sequence of the thematic inquiry, to maximize learning opportunities.</i>					
Project Planning Considerations					
- Opportunities to demonstrate research, thinking, team work, self management, organization, reflective learning and participation skills need to be included in the project. - Project needs to have an oral and a written component - Project needs to be based around the ADEC thematic inquiry for Grade 7 - Include a cross-curricular link if possible. Include an authentic purpose & audience where viable					
Project possibilities & suggestions:					
Careers Fest: students collaborate to create a day of guest speakers and information-sharing about career possibilities. OR Research a career and link its suitability to your personal qualities, strengths, interests. Explain why this would be the ideal career for you.					
UAE Heritage and Culture:					
<i>Promote UAE heritage, culture and national identity at every opportunity.</i> <i>Use UAE-based resources, data, information whenever possible.</i>					
ADEC Thematic Vocabulary:

Fiscal Monitor, April 2014 Ms.Martine Guerguil,Mr.Michael Keen,2014-04-09 Fiscal risks are abating somewhat but remain elevated In advanced economies recent policy moves have broadly stabilized public debt ratios but medium term prospects are still uncertain and debt remains at historic highs Fiscal vulnerabilities are rising in both emerging market economies and low income countries although in most cases from relatively moderate levels Across country groups fiscal policy should aim at rebuilding policy space while supporting the recovery and long term growth prospects *Intelligent Computing, Information and Control Systems* A. Pasumpon Pandian,Klimis Ntalianis,Ram Palanisamy,2019-10-18 From past decades Computational intelligence embraces a number of nature inspired computational techniques which mainly encompasses fuzzy sets genetic algorithms artificial neural networks and hybrid neuro fuzzy systems to address the computational complexities such as uncertainties vagueness and stochastic nature of various computational problems practically At the same time Intelligent Control systems are emerging as an innovative methodology which is inspired by various computational intelligence process to promote a control over the systems without the use of any mathematical models To address the effective use of intelligent control in Computational intelligence systems International Conference on Intelligent Computing Information and Control Systems ICICCS 2019 is initiated to encompass the various research works that helps to develop and advance the next generation intelligent computing and control systems This book integrates the computational intelligence and intelligent control systems to provide a powerful methodology for a wide range of data analytics issues in industries and societal applications The recent research advances in computational intelligence and control systems are addressed which provide very promising results in various industry business and societal studies This book also presents the new algorithms and methodologies for promoting advances in common intelligent computing and control methodologies including evolutionary computation artificial life virtual infrastructures fuzzy logic artificial immune systems neural networks and various neuro hybrid methodologies This book will be pragmatic for researchers academicians and students dealing with mathematically intransigent problems It is intended for both academicians and researchers in the field of Intelligent Computing Information and Control Systems along with the distinctive readers in the fields of computational and artificial intelligence to gain more knowledge on Intelligent computing and control systems and their real world applications **4D Printing** Fouad Sabry,2021-11-11 What Is 4D Printing 3D printing a type of additive manufacturing is regarded as one of the most disruptive inventions in modern manufacturing It has fundamentally altered the way components and equipments are made as well as their design and development in the industry 3D printing enables manufacturers and researchers to create sophisticated shapes and structures that were previously thought to be impossible to create using traditional production methods Over the previous three decades 3D printing technology has seen constant breakthroughs and has changed dramatically Despite its ability to generate sophisticated bio inspired multi material designs

3D printing is not yet suitable for mass production The addition of a fourth dimension to 3D printing technology is known as 4D Printing With this new dimension 3D printed things can change shape independently of environmental stimuli such as light heat electricity magnetic field and so on Printed items alter shape dynamically dependent on the needs and demands of the circumstance by incorporating the dimension of time with no electromechanical or moving parts The ability of 3D printed things to change shape over time in reaction to specific stimuli is based on the material's ability to transform over time in response to specific stimuli and it does not require human interaction to facilitate the process The growing demand for flexible products in a variety of applications such as self folding packaging and adaptable wind turbines has spurred the rise of 4D printing

How You Will Benefit I Insights and validations about the following topics Chapter 1 4D Printing Chapter 2 Four Dimensional Product Chapter 3 Responsive Architecture Chapter 4 Responsive Computer Aided Design Chapter 5 3D Printing Chapter 6 3D Modeling Chapter 7 3D Scanning Chapter 8 3D Printing Marketplace Chapter 9 3D Bioprinting Chapter 10 3D Food Printing Chapter 11 3D Manufacturing Format Chapter 12 3D Printing Speed Chapter 13 3D Systems II
