Spotting the Devil Spotting the Devil from Far and Near Rev. Bagan Tewa, 2009-04-20 Spotting The Devil Spotting The Devil From Far and Near Avoiding The Trap Of Negative Behavior In Order To Fulfill The Purpose Of Ones Life The word devil in this book is not used in the traditional sense The word devil conjures up a powerful image of everything that is negative and destructive and it is in this sense that the word is used We are surrounded by it In many ways we are consumed

by it yet man is afraid to utter the word as if by saying the word devil man is somehow admitting that he is accepting of this taboo and is in aggreance with the devil force This book says that we must and can learn to identify all these negatives as they come at us in order to avoid the dire consequences that come about as a result of our contact with these devils in our society This book seeks to examine the world in which we live with an analytical approach to why we as the human race make the choices in life that we do It starts with a simple story about an incident that happens in the authors childhood with the intention of explaining why the author sees things the way he does and coming to the realization that this was a defining moment in his life even though he did not know it at the time This book looks at fear the fear that is an obstacle to most of us and this fear is something we take for granted Most of us think that this fear is normal and that there is no way around it Not true as the author explains He goes into the reasons why we must conquer these fears and where most of these fears originate The author goes on to explain friendship and how we are so easily lulled into different behavior how easy it is for us to get caught up in the moment and how easily it is to get carried away usually to our detriment In using stories from his life experience he takes the reader on a journey and in every step of that journey he unfolds a secret There is so much that we take for granted and yet so much of this behavior can be prevented if we could only recognize what is coming at us just like the driver who knows he is about to collide with another car because he sees it coming towards him from the opposite direction The author looks at popular culture from the inside out and shows us how we are surrounded by so much negativity yet we dont know it because we do not look at society from this angle We can have a greater appreciation for the images that are fed to us if we see them for what they are and we can watch and enjoy without becoming consumed by fantasy if we understand the motives behind what is being fed to us In these times it is crucial that we learn from the mistakes of the past and we challenge ourselves to be more disciplined and to develop our sense of foresight because we all have the gift We are born with it but as we grow we allow societys ills to get the better of us and we just follow rather than lead ourselves into a better life where we can find the fulfillment that we all seek This book looks at first the microcosm and then the macrocosm taking a peek at wars and what is the lesson of these wars The author also looks at religion and mans attitude towards it Why do we get caught up in imagery and names and not listen to what is truth and what makes sense We follow even when two plus two does not make four we follow blindly and again are led downstream Finally the author looks at colors that have been in cultures for thousands of years and unravels the associations that many have come to attach to certain colors This book is an eye opener written in a simple language that would only serve to enlighten and unravel some of the mysteries that make life so complex The key is right in front of us We feel it therefore we know it and we are in denial more than we are not Do we get dressed everyday for the creator or do we get dressed for ourselves It is true that man cannot serve two masters but one can always find th

Homilies on the Gospel of John (41-124) Saint Augustine of Hippo,2021-03-25 Augustine s homilies on the Gospel of John are masterpieces not only of theological profundity but also of pastoral engagement This volume also includes the index for Homilies on the Gospel of John 1 40 Few ancient Christian authors attempted anything like a complete commentary on the Gospel of John among them Origen John Chrysostom and Augustine Of these Augustine s must count as the greatest Unlike Origen s it has come down to us in its entirety and of the others that remain it is certainly the most theologically profound John s gospel allows Augustine to range broadly over themes that were his life s work the Trinity the person of Christ the nature of the Church and its sacraments the fulfillment of the divine plan The 124 homilies that constitute Augustine s commentary however are masterpieces not only of theological profundity but also of pastoral engagement In the question and answer style that he frequently employs for example one can sense Augustine s real awareness of his congregation s struggles with the gospel text And the congregation s response to Augustine which he frequently alludes to is an indication of the success of his dialogical preaching style The Johannine literature drew out the best in Augustine The Homilies on the Gospel of John are the indispensable complement to The Homilies on The First Epistle of John published in this series and they should be a part of any serious theological library

Every day we make choices These choices impact our lives our careers our families our health our successes and our failures Often we make choices without considering the impact or consequences that may result We make choices every day in the workplace and in our personal lives that mold and craft our future and we are not even aware of it Where we are today is a direct result of the choices we have made Where we will be tomorrow is directly related to the choices we are going to make Each of us has been dealt a hand of cards The cards we have been dealt may have been outside our control However how we respond to these cards is 100 percent within our control The best poker players don't win because they always have the best cards they win because they know how to play the cards they are dealt They know when to fold when to stay in the game how to read the other players at the table and when to bluff They win because of choices they make with the cards they were dealt *It's Your Choice* will help bring clarity and perspective to the choices you are faced with each day in the workplace and in your personal life It will bring reason and logic to things that you may not have considered before *It's Your Choice* is designed to challenge you to think differently more clearly and with a larger perspective of the choices you make each day There will be things in *It's Your Choice* you don't want to hear There will be things shared that will challenge you to think deeper than you have in the past What you do with what you read in *It's Your Choice* is indeed your choice **Surprised by**
