Introducing Anaesthesia is a must-have guide for new trainees beginning their specialty training in anaesthesia. It clearly explains the basics of anaesthetics, including scientific principles, pharmacology, and clinical practice, as well as how to deal with common emergencies. The content addresses what a trainee needs to learn in the first three to six months of specialty training and maps to the Royal College of Anaesthetists Initial Assessment of Competency. Designed to provide structured support and learning, Introducing Anaesthesia builds confidence via the inclusion of diagrams and videos which demonstrate techniques and competencies.
