Di Leo, 2013-04-15 First published in 1983 In this comprehensive volume Dr Di Leo once again brings to the reader the fruitful combination of extensive knowledge of children's drawings and an approach to the subject that is intimate and humane but highly sophisticated Those familiar with his books have come to expect the lucid style with which Dr Di Leo leads the clinician toward incisive interpretations of children's drawings pointing out key features and using where appropriate parallels from the world of art and literature His discussions of over 120 drawings reproduced in this volume cover an astonishing range of topics including Interpretation Formal and Stylistic Features Mostly Cognition drawing a man in a boat Mostly Affect drawing a house Projective Significance of Child Art The Whole and Its Parts Global Features Body Parts Sex Differences and Sex Roles in Western Society as Perceived by Children Laterality and Its Effects on Drawing Tree Drawings

and Personality Traits Emotional Dis order Reflected in Drawings Pitfalls Role of the Arts in Education for Peace and Reflections In his analyses Dr Di Leo skillfully singles out examples of overinterpretation and other pitfalls and answers questions such as What does the therapist do when the child refuses to draw the family Is the drawing a self image What are the differences between regressive drawings compared with the immature drawings of normal children Even such fascinating topics as art brut creativity madness and child art are discussed The reader will find thought provoking both the author's astute analyses and his keen awareness of the influence of society on children and the pictures they draw Therapists in the field will find the book remarkably penetrating while students in the field will delight in its clarity and thoroughness Every one who works with the drawings of children will find it absorbing *Uniform Trade List Annual*, 1977

Children's Drawings Martin Krampen, 2013-06-29 This book is dedicated to all those who love children and their wonderful often surprising drawings This means it addresses all those interested in their developing capacity to produce iconic signs parents teachers child psychologists artists architects since building drawings are treated here and semioticians at large to name but a few potential readers Because of the broad audience I tried to keep scientific jargon to a minimum Whenever this was unavoidable I tried to explain the terms in such a way that even beginners in psychology could understand my arguments I received the first impulse to think about a book like this from the International Year of the Child declared by the UN in 1979 In a first phase of the project I obtained drawings of the six different building types treated in this book from more than 100 children aged 3-12 years in Turkey during a stay there as part of the faculty of Architecture of the Karadeniz Technical University in Trabzon under the auspices of the UN ESCO UNDP program TUR 75 012 My special thanks go to Dr Erdem Aksoy then president of the university and Dr Ozgontil Aksoy then dean of the faculty of Architecture and Civil Engineering for their encouragement to carry out the project I would also like to thank Dr Kutzal Oztirk Sevinc Ertirk Ali Ozbilen Hasan Saltik together with all the teachers in nursery and elementary schools in and around Trabzon who helped to collect the drawings **Drawings in Assessment and Psychotherapy** Leonard Handler, Antoinette D.

Thomas, 2013-11-20 Drawing is a language projected by children and adults reflecting their joy and pain It is used extensively by clinical psychologists art therapists social workers and other mental health professionals in the assessment and treatment of children adolescents adults and couples This book brings together a renowned group of professionals to analyze the research and application of the most popular assessment and treatment tools Tests discussed include the Draw a Person Test the House Tree Person Test the Kinetic Family Drawing Test the Art Therapy Projective Imagery Assessment and the Wartegg Drawing Completion Test Working with sexually and physically abused children assessing clients with anorexia nervosa and the influence of osteopathic treatment on drawings are some of the special topics considered Numerous case studies are also included [Handbook of Psychological Testing](#) Paul Kline, 2013-11-12 Since publication in its first edition the Handbook of Psychological Testing has become the standard text for organisational and educational psychologists It

offers the only comprehensive modern and clear account of the whole of the field of psychometrics. It covers psychometric theory, the different kinds of psychological test, applied psychological testing, and the evaluation of the best published psychological tests. It is outstanding for its detailed and complete coverage of the field, its clarity even for the non-mathematical, and its emphasis on the practical application of psychometric theory in psychology and education as well as in vocational, occupational, and clinical fields. For this second edition, the Handbook has been extensively revised and updated to include the latest research and thinking in the field. Unlike other work in this area, it challenges the scientific rigour of conventional psychometrics and identifies groundbreaking new ways forward.

The New Psychometrics Paul Kline, 2014-01-14. Many psychological factors are little more than statistical descriptions of particular sets of data and have no real significance. Paul Kline uses his long and extensive knowledge of psychological measurement to argue that truly scientific forms of measurement could be developed to create a new psychometrics. This would transform the basis of psychology and change it from a social science to a pure science.
