internet community Clickbank has cashed in on two basic principles which are 1 people who make things don't like to do marketing and 2 people who love to do marketing don't like to make things. By getting these two groups together, merchants, affiliates, and Clickbank all take away a nice profit because each makes the other successful. Clickbank, then, at its core is a clearing house that works as a meeting ground for merchants, affiliates, and customers who can order the product, pay for it, and download it or receive it by some other digital delivery system. Clickbank also offers real value to both merchants and affiliates because they handle all of the financial details and take a lot of the administrative work off of its members.
