Joining the Dialogue proposes that how we engage in dialogue with other researchers in our community matters. We not only read, acknowledge and build on the research of others as we compose our work; we also engage openly, attentively, critically and responsively to their ideas as we articulate our own. With this in mind, *Joining the Dialogue* is geared to helping students discover the key ethical practices of dialogue: receptivity and response ability as they join a research conversation. It also helps students master the dialogic structure of research essays as they write in and for their academic communities. Combining an ethical approach with accessible prose, dialogic structures and templates, practical exercises and ample illustrations from across the disciplines, *Joining the Dialogue* teaches students not only how to write research essays but also how to write those essays ethically as a dialogue with other researchers and readers. *Writing for Biomedical Sciences Students* Harry Witchel, 2020-02-14. This book will equip readers with all the skills needed to write convincing and polished assignments in biomedical sciences. The first part introduces the idea of writing for one's audience and enables readers to understand what is expected of them from different types of assignment. Part two provides detailed guidance on specific writing and presentation tasks with individual chapters on essays, lab reports, reflective writing, posters and presentations. Parts three and four cover all of the key skills needed for successful writing in the biomedical sciences and help students develop a critical eye when selecting and researching information and create clear, well-structured assignments. Chapters contain top tips, examples and helpful summaries of key points and three annotated sample assignments are provided in an appendix. This is an essential companion to any student studying biomedical science or related disciplines such as physiology, biomedical engineering, pharmacy, medicine and dentistry. *Teaching Creative Writing*, 1974.
