*Profiles from History Volume 1* Ashley M. Wiggers, 2009 Profiles from History takes a fresh look at familiar faces. Along with beautiful illustrations and fascinating stories, this book encourages children to think about the motivations of twenty historical figures. Activities and discussion questions help students recognize the effect these individuals have had on history. The profiles include Marco Polo, Johannes Gutenberg, William Bradford, Squanto, Galileo, Christopher Columbus, John Smith, Leonardo da Vinci, Pocahontas, William Shakespeare, Michelangelo, James Cook, George Frideric Handel, Benjamin Franklin, Meriwether Lewis, William Clark, Thomas Jefferson, Sacagawea, Mozart, Zebulon Pike, Francois Millet, Jesse Applegate. Did you know Benjamin Franklin had such an impact that nearly 20 000 people attended his funeral? Johannes Gutenberg invented the printing press to make the written word available to all, not just the wealthy. Pocahontas bravely risked her life on more than one occasion to save others. Francois Millet was one of the first to paint common people with honor and dignity. Jesse Applegate blazed a safer trail out west so that others would never have to experience his pain. Profiles include a variety of fun activities such as crossword puzzles, word scrambles, and sequencing. Timeline figures add depth and perspective. Make learning personal and memorable with Profiles from History.

**Routes To Sight Reading For Guitarists Book 2** Chaz Hart, 2006-03 To sight read means to be able to play music as the writer/composer intended without having to hear the music played first. The ability to read music is an essential part of playing any musical instrument and gives you access to a whole world of music. This book covers six of the most used keys and the first eight frets of the fingerboard. The pieces in this book follow a route from the New York suburbs to Carnegie Hall. This book can be used as a learning method for individual study. However, if you have a teacher to help you along the way, you'll find that the book has enhanced benefits. Below each line of music, a chord sequence is given. If you're learning electric guitar, ask your teacher to play these chords whilst you play the Guitar 1 melody; this will help you keep in time and bring the music alive. If you're learning classical guitar, then you can play each piece as a duet with your teacher. You should play Guitar 1 always printed on the left-hand page whilst your guitar teacher plays the music marked Guitar 2 always printed on the facing right-hand page. Please note that whilst both the chords and Guitar 1 and Guitar 2 are designed to harmonise together, the chords and Guitar 2 are not intended to be played together.

The system won't do it for us But we have each other In *The Imperfect and Unfinished Math Teacher: A Journey to Reclaim Our Professional Growth* master storyteller Chase Orton offers a vulnerable and courageous grassroots guide that leads K-12 math teachers through a journey to cultivate a more equitable inclusive and cohesive culture of professionalism for themselves what he calls professional flourishing The book builds from two bold premises First that as educators we are all naturally imperfect and unfinished and growth should be our constant goal Second that the last 40 years of top-down PD efforts in mathematics have rarely supplied teachers with what they need to equitably grow their practice and foster classrooms that are likewise empowered inclusive and cohesive With gentle humanity this book inspires teachers to break down silos observe each other's classrooms interrogate their own biases and put students at the center of everything they do in the math classroom This book weaves raw and authentic stories both personal and those from other educators into a relatable and validating narrative Offers interactive opportunities to self-reflect build relationships seek new vantage on our teaching by observing others' classrooms and students and share and listen to others' stories and experiences Asks teachers to give and accept grace as they work collaboratively to better themselves and the system from within so that they can truly serve each of their students authentically and equitably Implementing the beliefs and actions in this book will position teachers to become more active partners in each other's professional growth so that they can navigate the obstacles in their professional landscape with renewed focus and a greater sense of individual and collective efficacy It equips teachers and by extension their students to chart their own course and author their own equitable and joyful mathematical and professional stories
