**Flann O'Brien and the European Avant-Garde, 1934-45** Tobias William Harris, 2025-01-23 Crossing the boundaries of a single author study this book uncovers Flann O'Brien's attempt to forge a commercially successful Irish literary project from international avant garde influences. Situating O'Brien's early work within a global context, the book uses new evidence of his collaborations to reimagine him as a networked writer. O'Brien drew upon experimental techniques to generate new categories of writing, rethink Irish culture, and reach a wide audience. This study illuminates a network of cultural production around O'Brien, linking his work to English comic magazines, Dadaist photomontage, Expressionism, Central European theatre, and renowned writers like Jorge Luis Borges and Franz Kafka. By re-examining Flann O'Brien within the context of the momentous global political and cultural crises that spurred avant garde experimentation, the book also rewrites the cultural history of Ireland in the 1930s and 1940s.

The Strange Death of Moral Britain Christie Davies, 2004 In the last half of the twentieth century a once respectable and religious Britain became a seriously violent and dishonest society, one in which person and property were at risk, family breakdown was ubiquitous, and drug and alcohol abuse was rising. The Strange Death of Moral Britain demonstrates in detail the roots of Britain's decline. It also shows how a society strongly Protestant in both morality and identity became one of the most secular societies in the world. The culture wars about abortion, capital punishment, and homosexuality which have convulsed the United States have little meaning in Britain where there is neither a moral majority nor any indigenous emphasis on rights. In the period when Britain had a strong national and religious identity, defense of this identity led to legal persecution of male homosexuals. As Britain's identity crumbled, homosexuality ceased to be an important issue for most people. Similarly, all the pressing questions on abortion, capital punishment, and homosexuality were settled permanently on a purely utilitarian basis in Britain where all sources of moral argument are weak. The ending of the death penalty marked the decline of the influence of the official hierarchies of church and state: the Church of England, the armed forces, and their representative, the Conservative Party. The Strange Death of Moral Britain is a study of moral change, secularization, loss of identity, and the growth of deviant behavior in Britain in the twentieth century. Based on detailed scholarship, it is tightly argued and clearly written, with a minimum of jargon. It will be of interest to scholars in religious studies and British social history, and to a general reading public concerned with timely moral controversies.

Henry Green Nick Shepley, 2016-08-04 Henry Green's Class Style and the Everyday offers a critical prism through which Green's fiction from his earliest published short stories as an Eton schoolboy through to his last dialogic novels of the 1950s can be seen as a coherent, subtle, and humorous critique of the tension between class style and realism in the first half of the twentieth century. The study extends on going critical recognition that Green's work is central to the development of the novel from the

twenties to the fifties acting as a vital bridge between late modernist inter war post war and postmodernist fiction The overarching contention is that the shifting and destabilizing nature of Green s oeuvre sets up a predicament similar to that confronted by theorists of the everyday Consequently each chapter acknowledges the indeterminacy of the writing whether it be the non singular functioning or malfunctioning of the name the open ended purposefully ambiguous nature of its symbols the shifting cinematic nature of Green s prose style the sensitive but resolutely unsentimental depictions of the working classes and the aristocracy in the inter war period the impact of war and its inconsistent irruptions into daily life or the ways in which moments or events are rapidly subsumed back into the flux of the everyday their impact left uncertain Critics have historically offered up singular readings of Green s work or focused on the poetic or recreative qualities of certain works particularly those of the 1940s Green s writing is undoubtedly poetic and extraordinary but this book also pays attention to the clichéd meta textual and uneventful aspects of his fiction **The Illustrated London News**, 1855 **Joyce and Raoul**

assault with sensory tutelage Jazz like the new technologies of modernity re calibrated sensory ratios The criterion of the new as self making also extended to names pseudonyms and heteronyms The protocols of modernism solicited a pragmatic arousal of bodily sensation as artistic resource validating an acrobatic sensibility ranging from slapstick and laughter to the pathos of bereavement Expressivity trumped representation The artwork was a diagram of perception not a mimetic rendering For artists the historical pressures of altered perception provoked new models and Ezra Pound s slogan Make It New became the generic rallying cry of renovation The paradigmatic stance of the avant garde was established by Futurism but the discovery of prehistoric art added another provocation to artists Paleolithic caves validated the spirit of all over composition unframed and dynamic Geometric abstraction Constructivism and Purism and Surrealism were all in quest of a new mythology Making it new yielded a new pathos in the sensation of radical discrepancy between futurist striving and remotest antiquity The Paleolithic cave and the USSR emitted comparable siren calls on behalf of the remote past and the desired future As such the present was suffused with the pathos of being neither but subject to both

**Photography and American Coloniality** Raoul J. Granqvist, 2017-04-01 This book is the first to question both why and how the colonialist mythologies represented by the work of photographer Eliot Elisofon persist It documents and discusses a heterogeneous practice of American coloniality of power as it explores Elisofon s career as war photographer correspondent and staff photographer for LIFE filmmaker author artist and collector of primitive art and sculpture It focuses on three areas Elisofon s narcissism voyeurism and sexism his involvement in the homogenizing of Western social orders and colonial legacies and his enthused mission of sending home a mass of still life photographs annexed African artifacts and assumed vintage knowledge The book does not challenge his artistic merit or his fascinating personality what it does question is his production and imagining of difference As the text travels from World War II to colonialism postcolonialism and the Cold War from Casablanca to Leopoldville Kinshasa it proves to be a necessarily strenuous and provocative trip
