Shahidul Islam, 2021-12-23. With the exception of Sri Lanka South Asian countries have not achieved quality basic education an essential measure for escaping poverty inequality and social exclusion. In *The Political Economy of Education in South Asia* John Richards Manzoor Ahmed and Shahidul Islam emphasize the importance of a dynamic system for education policy. *The Political Economy of Education in South Asia* documents the weak core competency reading and math outcomes in government primary schools in India Pakistan Bangladesh and Nepal and the consequent rapid growth of non government schools over the last two decades. It compares the training hiring and management of teachers in South Asian schools to successful national systems ranging from Singapore to Finland. Discussing reform options it makes the case public good and public priorities are better served when both public and non government providers come under a strong public policy and accountability framework. *The Political Economy of Education in South Asia* draws on the authors broad engagement in education research and practice in South Asia as well as analysis by prominent professors of education and NGO leaders to place basic education in a broad context and make the case that universal literacy and numeracy are necessary foundations for economic growth. *Historical Reforms in Education* Nurula Isalāma Nāhida, 2013. *African Books in Print*, 1978. **Refocusing Research in Science, Technology, and Mathematics (STM) Education** Science Teachers Association of Nigeria.
