Civil Litigation Handbook 2014-15 Susan Cunningham-Hill, Karen Elder, 2014-08-14 The Civil Litigation Handbook introduces students to the processes and procedures involved in making and defending civil litigation claims The text is ideal for students taking the Legal Practice Course or relevant LLB or LLM modules and features case studies on both a personal injury matter and a commercial matter making it suitable for students with either a high street or a commercial focus Following the chronological progression of a civil litigation claim the book offers practical guidance on advising clients whilst ensuring that the principles of the SRA Handbook and Code of Conduct 2011 are maintained Students on CILEx courses new trainees in practice and paralegals will find this practical guidance of use in both their study and their work Innovative diagrams at the beginning of chapters make clear the way in which the litigation procedure works and help students understand the nature of the process as a whole Examples provide students with a realistic context for their learning while issues of cost best practice and professional conduct are clearly highlighted Alternative dispute resolution is given appropriate practical emphasis and references to the Civil Procedure Rules throughout make sure that students are ready for life in practice Online Resource Centre Student Resources Case study documentation Additional chapters covering injunctions a practical guide to court hearings and instructions to counsel Annotated forms Appendix Links to key Court forms Litigation train Podcasts Updates Weblinks Lecturer Resources Case study materials Video clips Test bank of over 50 multiple choice questions

House of Commons - Transport Committee: Cost of Motor Insurance: Whiplash - HC 117 Great Britain: Parliament: House of Commons: Transport Committee, 2013-07-31 Whiplash injuries can have debilitating consequences for those who suffer them However some of the increase in whiplash claims will have been due to fraud or exaggeration The Government must tighten up the requirements for motor insurance claims and ensure that insurers honour their commitment to reduce premiums The Government should consider requiring claimants to provide proof that they have either been seen by a doctor or attended A E shortly after the accident The MPs also note that their previous recommendation on making the links between insurers and other parties involved with claims more transparent has been ignored The absence of comprehensive statistics about road traffic accidents means that it is impossible to relate the increasing number of personal injury claims in recent years to the number of accidents Data collection about road accidents needs to be improved help to assist detection of fraudulent personal injury claims and help highways authorities improve road safety by targeting spending on accident black spots The Committee also supports the proposal for an accreditation scheme for medical practitioners who provide medical reports in

relation to whiplash claims Access to justice could also be impaired by Government proposals to switch whiplash claims between 1 000 and 5 000 to the small claims court particularly for people who do not feel confident to represent themselves against insurers who will use legal professionals to contest claims Ways in which use of the small claims track could be combined with the routine submission of expert evidence should be considered

Tort Law Kirsty Horsey,Erika Rackley,2015 This best selling undergraduate textbook from leading academics Kirsty Horsey Erika Rackley gives a comprehensive grounding in tort law and carefully chosen learning features help students to become engaged and critical thinkers

Rights, Wrongs, and Injustices Stephen A. Smith,2019-11-12 Rights Wrongs and Injustices is the first comprehensive account of the scope foundations and structure of remedial law in common law jurisdictions The rules governing the kinds of complaints that common law courts will accept are generally well understood However the rules governing when and how they respond to such complaints are not This book provides that understanding It argues that remedies are judicial rulings and that remedial law is the law governing their availability and content Focusing on rulings that resolve private law disputes for example damages injunctions and restitutionary orders this book explains why remedial law is distinctive how it relates to substantive law and what its foundational principles are The book advances four main arguments First the question of what courts should do when individuals seek their assistance the focus of remedial law is different from the question of how individuals should treat one another in their day to day lives the focus of substantive law Second remedies provide distinctive reasons to perform the actions they command in particular they provide reasons different from those provided by either rules or sanctions Third remedial law has a complex relationship to substantive law Some remedies are responses to rights threats others to wrongs and yet others to injustices Further remedies respond to these events in different ways while many remedies merely replicate substantive duties others modify substantive duties and some create entirely new duties Finally remedial law is underpinned by general principles principles that cut across the traditional distinctions between so called legal and equitable remedies Together these arguments provide an understanding of remedial law that takes the concept of a remedy seriously classifies remedies according to their grounds and content illuminates the relationship between remedies and substantive law and presents remedial law as a body of principles rather than a historical category

Evidential Uncertainty in Causation in Negligence Gemma Turton,2016-05-19 This book undertakes an analysis of academic and judicial responses to the problem of evidential uncertainty in causation in negligence It seeks to bring clarity to what has become a notoriously complex area by adopting a clear approach to the function of the doctrine of causation within a corrective justice based account of negligence liability It first explores basic causal models and issues of proof including the role of statistical and epidemiological evidence in order to isolate the problem of evidential uncertainty more precisely Application of Richard Wright's NESS test to a range of English case law shows it to be more comprehensive than the but for test that currently dominates thereby reducing the need to resort to additional tests such as the Wardlaw test of material contribution to harm the scope and meaning of which are uncertain The book builds on this foundation to explore the solution to a range of problems of evidential uncertainty focusing on the Fairchild principle and the idea of risk as damage as well as the notion of loss of a chance in medical negligence which is often seen as analogous with increase in risk in an attempt to bring coherence to this area of the law

Women and Children as Victims and Offenders: Background, Prevention,

Reintegration Helmut Kury, Sławomir Redo, Evelyn Shea, 2016-06-20 This work compiles experiences and lessons learned in meeting the unique needs of women and children regarding crime prevention and criminal justice in particular the treatment and social reintegration of offenders and serves as a cross disciplinary work for academic and policy making analyses and follow up in developing and developed countries Furthermore it argues for a more humane and effective approach to countering delinquency and crime among future generations In a world where development positively depends on the rule of law and the related investment security two global trends may chart the course of development urbanization and education Urbanization will globalize the concepts of justice and fairness education will be dominated by the urban mindset and digital service economy just as a culture of lawfulness will This work looks at crime prevention education as an investment in the sustainable quality of life of succeeding generations and at those who pursue such crime prevention as the providers of much needed skills in the educational portfolio Adopting a reformist approach this work collects articles with findings and recommendations that may be relevant to domestic and international policymaking including the United Nations Studies and their educational value for the welfare of coming generations The books address the relevant United Nations ideas by combining them with academic approaches Guided by the Editors respective fields of expertise and in full recognition of academic freedom and organized scepticism it includes contributions by lawyers criminologists sociologists and other eminent experts seeking to bridge the gap between academic and policy perspectives as appropriate against the international background including the United Nations developments The second volume opens with Part IV which presents articles on different kinds of crime prevention The effectiveness of punishment and in particular imprisonment is examined by contrasting it with alternative sanctions and the following questions are raised Does harsh punishment have a crime preventive effect What are the side effects of imprisonment on the offenders and their families Are alternatives such as restorative justice or mediation more effective and cheaper Part V outlines proactive strategies of crime prevention e g for potential sex offenders or in the domain of internet crime Part VI envisions a more peaceful and inclusive society which would be realized by improving the protection of women and children in their everyday life and easing the reintegration of those who have become offenders The importance of the role played by the UN in formulating these goals is underlined The volume concludes with an epilogue of the 70th President of the United Nations Economic and Social Council Martin Sajdik and a post scriptum of the editors p
