The Medieval Changeling Rose A. Sawyer, 2023 The first comprehensive study of medieval changelings and associated attitudes to the health and care of children in the period The changeling a monstrous creature swapped for a human child by malevolent powers is an enduring image in the popular imagination dubbing a child a changeling is traditionally understood as a way to justify the often violent rejection of a disabled or ailing infant Belief in the reality of changelings is famously attested in Stephen of Bourbon's disapproving thirteenth century account of rites at the shrine of Saint Guinefort the Holy Greyhound where sick children were brought to be cured However the focus on the St Guinefort rituals has meant some scholarly neglect of the wealth of other sources of knowledge including mystery plays and medical texts and the nuances with which the changeling motif was used in this period This interdisciplinary study considers the idea of the changeling as a cultural construct through an examination of a broad range of medical miracle and imaginative texts as well as the lives of three more conventional Saints Stephen Bartholomew and Lawrence who in their infancy were said to have been replaced by a demonic changeling The author highlights how people from all walks of life were invested in both creating and experiencing the images texts and artefacts depicting these changelings and examines societal tensions regarding infants and children their health their care and their position within the familial unit **Educated Fiji English** Lena
