Enduring Issues Essay

- Results from field test were positive → seems like a “doable” task for students.
- Students will not be given examples of enduring issues – don’t want to limit their thinking.
- Not concerned with how articulate the answers are.
- Rubrics – changed DBQ rubric to fit EIE
- Session at NYSCSS Convention on scoring
- Some districts are using New Visions Els

Discipline Problems Tadashi Dozono, 2024-05-07 Angel a Black tenth grader at a New York City public school self identifies as a nerd and likes to learn But she s troubled that her history classes leave out events like the genocide and dispossession of Indigenous people in the Americas presenting a sugar coated image of the United States that is at odds with her everyday experience The history I learned in school is simpler she says The world I live in is a lot more complex Angel like every student interviewed in Discipline Problems has been identified by teachers as a troublemaker a student whose behavior disrupts classroom norms and interferes with instruction But her critiques of the curriculum she s taught speak to her curiosity and insight crucial foundations for understanding history Like many students who have been marginalized by systemic racism in American schools she exposes the shortcomings of her classrooms academic environments by challenging both the content and the methods of her education All too often these challenges are framed as troublemaking and the students are disciplined for acting out instead of being rewarded for their intellectual engagement Tadashi Dozono a professor of education and former high school social studies teacher takes seriously the often overlooked critiques that students of color who get labeled as troublemakers direct toward their high school history curriculum He reinterprets troublemaking usually cast as a behavioral deficit as an intellectual asset and form of reasoning that challenges the disciplining reason of classrooms where whiteness is valued over the histories and knowledge of people of color Dozono shows how what are traditionally framed as discipline problems can be seen through a different lens as responses to educational practices that marginalize non white students Discipline Problems reveals how students of color seek out alternate avenues for understanding their world and imagines a pedagogy that champions the curiosity intellect and knowledge of marginalized learners

Understanding Non State Actors aims to reduce the scarcity of academic literature on armed non state actors NSAs that have always been a part of world politics and wars This monograph offers possibly for the first time a systematic historical review as well as a substantive theory of NSAs and their arming efforts The world has been astonished by the ability of the well armed Hamas to inflict heavy losses on the powerful Israel Thus from the Jewish rebellion against Rome to the war between the Ukrainian separatists and the Ukrainian government NSAs weapons acquisition has been vital for the build up of their force enabling both the employment of that force and its sustainability While weapons are not necessarily the most important factor in military build up NSAs need weapons to fight and revolts usually erupt after the organizers have acquired a certain number of weapons Conversely many revolts lose momentum and operations are not carried out or turn ineffective due to shortages of arms and ammunition A major theme of this monograph is that in spite of dramatic political and technological changes armed NSAs in different periods have employed similar methods to acquire weapons Self production looting and stealing external support and the arms trade were always the major ways for NSAs to acquire weapons though the

importance of each method and the type of arms has changed remarkably over time Understanding Non State Actors discusses the factors political social cultural technological and organizational that have both facilitated and constrained the ability of NSAs to acquire arms Especially lecturers and students of Military Terrorism Conflict studies War and peace studies will benefit from this study
