

human being rise above narrow preconceptions. It is obvious that countries at war are enemies, and hatred is a part of this enmity. It becomes essential to break the chains and stand aside from the crowd. Here in this story, when the doctor observed the injured enemy, he was unable to resist his natural impulse to help the man. It is the best example to describe the situation that makes a human being rise above conventional biases.

**6. Do you think the doctor's final solution to the problem was the best possible one in the circumstances?**

**Answer.**

The doctor attempted his best to save the injured soldier as a part of his service. But the final question was what to do next. It cannot be said that he betrayed his land as he told the truth to the General. The final decision he made was advantageous to both the white man and the doctor's family as he treated him very finely. He also presented him with attire and food and asked him to leave for his native place. By doing this, he saved himself too. However, when the general remarked that the injured soldier was to be killed not for the advantage of the country but only to save the doctor's life, he decided to help him flee. In such a condition, the doctor's final solution to the problem was the best possible one.

**7. Does the story remind you of 'Birth' by A. J. Cronin that you read in Snapshots last year? What are the similarities?**

**Answer.**

Yes, the story reminds me of "Birth" by A.J. Cronin. There are many striking similarities between Birth and The Enemy. Both stories show the gentle character of the doctors towards their patients, irrespective of other circumstances. "Birth" describes the very practical nature of the doctor when Morgan calls him for his child. In "The Enemy", the doctor helps the white man because of his injury, although he is his enemy. "Birth" shows the patient nature of a doctor. Though the baby is lifeless at birth, the doctor continues to hope to save it. And in "The Enemy", the doctor takes care of white sailors for many days till the white man securely goes through the boat. In both stories, the doctors treat their patients with devotion towards their job, whatever the situation. For Dr Sadao, the risk was to let the white man stay, and for that, they could get arrested, while Dr Andrew risked giving a new life to the "stillborn" baby. Consequently, both stories deal with humanity's love, affection, selflessness, and a strong sense of duty.
