Date: 29.06.18

Dear Team Members,

This is to inform you that the Marketing Department is organizing a Team Building Meeting for all our staff members on 2nd July, 2018 at Meeting Audi- 1 from 11 a.m. till 7 p.m.

In order to grow in our career, it is extremely important that we grow together and that can only happen if we work as a team so that our skills and talents synergize to bring better results. That's the reason our department keeps organizing various team building activities from time to time.

At this event, we have organized a meeting in which all team members will be asked to share their experiences as the team member. They can also come up with suggestions or share reasons which restrict them from delivering the performance they expect to. There will also be a few team building indoor games along with a lunch sponsored by the Company.

We look forward to your presence at this team building event which is been organized for helping each one of us grow. In case you think you will not be able to attend this meeting, kindly inform the same to Ms. Geeta Gupta at 98989-12345.

Best Regards,

Anjali Sharma

Project Partnering for the Design and Construction Industry Ralph J. Stephenson, 1996-01-12 It is no secret that problems in the construction industry can quickly escalate into full fledged conflicts adversarial positions taken by the various parties involved in a project routinely lead to disrupted schedules and costly litigation It doesn't have to be that way *Project Partnering for the Design and Construction Industry* provides powerful tools for improving working relationships among contractors designers clients and suppliers Speaking directly to the construction professional author Ralph J. Stephenson demonstrates numerous ways to avoid conflict and ensure successful on time project deliveries by promoting teamwork establishing noncontract ground rules for ethical and responsible behavior and employing a variety of conflict resolution techniques This thoroughly practical handbook describes all the steps procedures and guidelines you need to make project partnering work for you You'll discover how to identify possible sources of conflict before the work begins and learn to plan and write a project partnering charter You'll develop the ability to identify commonly encountered problem types and avoid miscommunications and disputes that may arise from incompatible personalities and management styles Using real world case studies examples and his own personal observations the author examines construction projects of all sizes and types from inception and design through

completion and beyond. He offers a historical overview of the construction industry, comments on its nature as a business, analyzes its various components, and offers helpful tips on management methods for specific projects and organizational structures. This comprehensive and enthusiastic book demonstrates how effective project partnering fosters competent, high-quality work throughout the entire life cycle of a project. It also enables construction professionals to make each project more profitable and less stressful while finding renewed job satisfaction in a revitalized working environment. How to manage construction projects on time, within budget, and without major conflicts. To many contractors, architects, design engineers, and suppliers, a conflict-free construction project may seem like an impossible dream. Not so. Project Partnering for the Design and Construction Industry provides step-by-step instructions on how to conduct a high-quality, on-time, profitable construction project while avoiding strife, adversarial behavior, or debilitating legal action. Written in plain English and spiced with humor, this enormously useful guide examines all practical methods and procedures needed to create successful partnering systems for a wide range of projects. Shows how project partnering dispute resolution techniques can defuse problems and disagreements quickly and inexpensively before they get out of hand. Describes a variety of preventative measures to help contain liability and reduce time spent on nonconstruction activities. Helps establish productive relationships among all participants in a construction project, including designers, contractors, clients, and suppliers. Provides numerous case studies where project partnering has been applied successfully, as well as real-world examples, charts, illustrations, and actual partnering charters. Offers alternative dispute resolution techniques for situations where project partnering is inappropriate. Discusses background history and the general organizational structure of the construction industry. For contractors, engineers, architects, subcontractors, suppliers, and owners, and anyone involved in the decision-making process on construction projects, this book provides the key to undertaking projects with confidence and building a solid reputation in the marketplace.
