Juses Laforgue Jules Laforgue, 1998 Deeply nihilistic yet full of yearning tender yet savagely self mocking Laforgue has a unique voice and vision that nonetheless mark him out as one of the founding fathers of modernism Like Charles Baudelaire before him he was determined to face up to the ugly and decadent as well as the conventionally poetic aspects of himself and the world about him In a career that rivals Arthur Rimbaud's for its tragically brief accelerated development he pioneered the use of coarse colloquialism startling rhymes and astonishing invented words His greatest achievement the posthumous *Derniers Vers* 1890 was the first complete French volume of free verse Partly influenced by his translation of Walt Whitman the first in the French language *Derniers Vers* is brilliantly effective in capturing the truth of fleeting impressions and inner

sensations It is also writes Graham Dunstan Martin one of the musical masterpieces of literature This bilingual edition features a generous selection of poems in the original French from Laforgue s *Le Sanglot de la Terre* *Les Complaintes* *L Imitation de Notre Dame la Lune* *Des Fleurs de Bonne Volonte* and *Derniers Vers* with running prose translations at the bottom of each page

Work and Leisure in Late Nineteenth-Century French Literature and Visual Culture C. White, 2014-06-25 In this engaging new study Claire White reveals how representations of work and leisure became the vehicle for anxieties and fantasies about class and alienation affecting in turn the ways in which writers and artists understood their own cultural work

Poems of Jules Laforgue Jules Laforgue, 2001 Like Poe Laforgue has been a more influential poet abroad than at home His innovatory handling of free verse for example was an inspiration to the young T S Eliot who was also drawn to his tone of urban wit and the way his poetry part symbolist and part impressionist reflected the uncertainties of modern city life Peter Dale captures the resourceful energy and panache of Laforgue s poetry in translations which are as playful wild clear obscure and impossible as the French poems

Stages of Self Elisabeth A. Howe, 1990 The dramatic monologue has attracted considerable critical attention in English but is rarely considered relevant to French poetry and has generally been ignored in studies of comparative literature In Stages of Self various poems by Jules Laforgue Stephane Mallarm and Paul Ambroise Valery are analyzed to show that they conform to the norms of the genre even though they bear little surface resemblance to the dramatic monologues by Browning Pound or Eliot Traditionally a dramatic monologue is a poem spoken by an identified persona placed in a dramatic situation This description fits poems such as L Apr s midi d un faune and La Jeune Parque though the persona and the drama are quite unlike those of English and American dramatic monologues The latter two tend to characterize the speaker fully and to place him her in a well defined spatial and temporal context while the French poems ignore characterization and give very little contextual detail The figures of the Parque and the Faun are engaged in purely internal dramas which again distinguishes these poems from the Browning esque dramatic monologue they belong to the dramatic tradition of Racine rather than Shakespeare LaForugue s oetry constitutes an interesting half way point between the representational dramatic monologue typical of Browning which Laforgue ironically undermines and the more impersonal and universal though still dramatic monologues of Mallarm and Valery Howe seeks to redefine the scope of the term dramatic monologue which she feels is often unduly limited She notes that the term is frequently confined to the use of spoken colloquial language so foreign to Mallarm Valery or indeed Tennyson or the presence of a silent interlocutor However Howe contends that such narrow interpretations restrict the genre to Browning s monologues and not all of those Admitting that far more examples of the genre exist in English Howe attributes the scarcity to the differing assumptions on the part of French poets about poetic voice and about the nature of

spoken as opposed to written language *Collier's Encyclopedia* ,1986
