Lost Causes Valerie Rohy, 2015 *Lost Causes* stages a polemical intervention in the discourse that grounds queer civil rights in etiology that is in the cause of homosexuality whether choice recruitment or biology Lost Causes Valerie Rohy, 2014 *Lost Causes* stages a polemical intervention in the discourse that grounds queer civil rights in etiology that is in the cause of homosexuality whether choice recruitment or biology Reading etiology as a narrative form political strategy and hermeneutic method in American and British literature and popular culture it argues that today's gay arguments for biological determinism accept their opponents' paranoia about what Rohy calls homosexual reproduction that is nonsexual forms of queer increase preventing more complex ways of considering sexuality and causality This study combines literary texts and psychoanalytic theory two salient sources of etiological narratives in themselves to reconsider phobic tropes of homosexual reproduction contagion in *Borrowed Time* bad influence in *The Picture of Dorian Gray* trauma in *The Night Watch* choice of identity in James Weldon Johnson's *Autobiography of an Ex-Colored Man* and dangerous knowledge in *The Well of Loneliness* These readings draw on Lacan's notion of retroactive causality to convert the question of what causes homosexuality into a question of what homosexuality causes as the constitutive outside of a heteronormative symbolic order Ultimately this study shows queer communities and queer theory must embrace formerly shaming terms why should the increase of homosexuality be unthinkable while retaining the critical sense of queerness as a non-identity a permanent negativity

**The Palgrave Handbook of Feminist, Queer and Trans\* Narrative Studies** Vera Nünning, Corinna Assmann, 2025-07-09 *The Palgrave Handbook of Feminist Queer and Trans Narrative Studies* provides a comprehensive overview of the intersection between narrative theory and feminist queer and trans theory Bringing together eminent and emerging scholars from a range of disciplines it foregrounds connections between new views on gender and recent developments in narratology The first section outlines key concepts for the study of narrative and gender and features theory-oriented chapters on what it means for the study of narrative to go beyond gender

binaries The middle sections cover some of the currently most influential fields of narratology and literary theory cognitive and eco narratology postcolonial studies as well as concepts that are central to both narrative and gender studies such as affect and performativity The last section explores the meaning of gender in various genres and media formats from science fiction and trans autobiographies to film TV and social media This field changing volume shows how the proliferation of new ways to think about gender identity and sexuality demands a strong reconsideration of narratological methodologies Chapter 23 is available open access under a Creative Commons Attribution 4.0 International License via [link.springer.com](https://link.springer.com)

**Queer/Adaptation** Pamela Demory, 2019-02-15 This collection of essays illuminates the intersection of queer and adaptation Both adaptation and queerness suffer from the stereotype of being secondary to identify something as an adaptation is to recognize it in relation to something else that seems more original more authentic Similarly to identify something as queer is to place it in relation to what is assumed to be normal or straight This ground breaking volume brings together fifteen original essays that critically challenge these assumptions about originality authenticity and value The volume is organized in three parts The essays in Part I examine what happens when an adaptation queers its source text and explore the role of the author screenwriter director in making those choices The essays in Part II look at what happens when filmmakers push against boundaries of various kinds time and space texts and bodies genres and formats And the essays in Part III explore adaptations whose source texts cannot be easily pinned down where there are multiple adaptations and where the adaptation process itself is queer The book includes discussion of a wide variety of texts including opera classic film genre fiction documentary musicals literary fiction low budget horror camp classics and experimental texts providing a comprehensive and interdisciplinary introduction to the myriad ways in which queer and adaptation overlap Civil

Liberties in Real Life Timothy C. Shiell, 2020-09-04 This volume brings together eight US authors breaking new ground with multidisciplinary perspectives and an exciting range of real life topics concerning the central question What is civil liberty The contributions here dive into freedom of speech religious freedom freedom of assembly and much more examining how and why marginalized groups such as African Americans women and queers used civil liberties in their struggle for equality Topics covered in this volume range from considering how we can moderate the corrupting influences of luxury and consumerism promoted by private property rights to the dilemma of teaching politically controversial civil liberty topics and the role of free speech in the classroom The book is a must read for anyone interested in civil liberty whether an expert novice or in between **Inceptions** Kevin Ohi, 2021-04-06 The beginning is both internal and external to the text it initiates and that noncoincidence points to the text's vexed relation with its outside Hence the nontrivial self reflexivity of any textual beginning which must bear witness to the self grounding quality of the literary work its inability either to comprise its

inception or to externalize it in an authorizing exteriority In a different but related way the fact that they must begin renders our lives and our desires opaque to us what Freud called latency marks not only sexuality but human thought with a self division shaped by asynchronicity From Henry James's New York Edition prefaces to George Eliot's epigraphs from Ovid's play with meter to Charles Dickens's thematizing of the ex nihilo emergence of character from Wallace Stevens's abstract consideration of poetic origins to James Baldwin's Carson McCullers's and Eudora Welty's descriptions of queer childhood writers repeatedly confront the problem of inception Inception introduces a fundamental contingency into texts and psyches alike in the beginning all could have been otherwise For Kevin Ohi the act of inception and the potential it embodies enables

us to see making and unmaking coincide within the mechanism of creation In this sense Inceptions traces an ethics of reading the possibility of perceiving in the ostensibly finished forms of lives and texts the potentiality inherent in their having started forth

The Book of Minor Perverts Benjamin Kahan, 2019-02-05 Shortlisted for the Modernist Studies Association Book Prize Statue fondlers wanderlusts sex magicians and nymphomaniacs the story of these forgotten sexualities what Michel Foucault deemed minor perverts has never before been told In The Book of Minor Perverts Benjamin Kahan sets out to chart the proliferation of sexual classification that arose with the advent of nineteenth century sexology The book narrates the shift from Foucault's thousand aberrant sexualities to one homosexuality The focus here is less on the effects of queer identity and more on the lines of causation behind a surprising array of minor perverts who refuse to fit neatly into our familiar sexual frameworks The result stands at the intersection of history queer studies and the medical humanities to offer us a new way of feeling our way into the past

**Chances Are** Valerie Rohy, 2019-10-11 This innovative work makes use of psychoanalytic queer and narrative theories to read nineteenth and twentieth century American literature and demonstrate how the concept of contingency whether chance accident luck or mutation enriches our understanding of how queer sexualities are articulated Perhaps love always carries an element of contingency our attraction to a particular person can be arbitrary and inexplicable and a sense of necessity we find that we cannot imagine life without them But contingency and chance mean something different for queer subjects In a heteronormative culture heterosexuality claims to be necessary it must be whereas homosexuality not only could be otherwise but perhaps it should be otherwise and probably it should not be at all This book outlines why and how issues of chance and contingency should matter to queer theory and queer literary studies Combining psychoanalytic queer and narrative theories *Chances Are* considers nineteenth and twentieth century American literary texts that formally or thematically involve contingencies of their own including narrative coincidences and accidents the role of luck in notions of race and class and efforts to imagine queer hermeneutic methods that make space for contingency Literary texts include Edgar Allan Poe s *The Mystery of Marie Rog t* 1842 Horatio Alger s *Ragged Dick* novels 1868-69 Frank Norris s *The Pit* 1903 and Edith Wharton s *The House of Mirth* 1905 Frances E W Harper s *Iola Leroy* 1892 and Nella Larsen s *Passing* 1929 H D s *Tribute to Freud* 1956 and Alison Bechdel s *Are You My Mother* 2012 This dynamic and original text would be suitable for students and researchers in literary studies critical theory and women s and gender studies

**Queer Velocities** Jennifer Eun-Jung Row, 2022-04-15 *Queer Velocities Time Sex and Biopower on the Early Modern Stage* explores how seventeenth century French theater represents queer desire In this book the first queer theoretical treatment of canonical French theater Jennifer Eun Jung Row

proposes that these velocities moments of unseemly haste or strategic delay sparked new kinds of attachments intimacies and erotics Rather than rely on fixed identities or analog categories we might turn to these affectively saturated moments of temporal sensation to analyze queerness in the premodern world The twin innovations of precise portable timepieces and the development of the theater as a state institution together ignited new types of embodiments orderly and disorderly pleasures and normative and wayward rhythms of life Row leverages a painstakingly formalist and rhetorical analysis of tragedies by Jean Racine and Pierre Corneille to show how the staging of delay or haste can critically interrupt the normative temporalities of marriage motherhood mourning or sovereignty the quotidian rhythms and paradigms so necessary for the biopolitical management of life Row s approach builds on the queer turn to temporality and Elizabeth Freeman s notion of the chronobiopolitical to wager that queerness can also be fostered by the sensations of disruptive speed and slowness Ultimately Row suggests that the theater not only contributed to the glitter of Louis XIV s absolutist spectacle but also ignited new forms of knowing and feeling time as well as new modes of loving living and being together
