Superintendent of Documents,1896 **Social Science for What?** Mark Solovey,2020-07-07 How the NSF became an important yet controversial patron for the social sciences influencing debates over their scientific status and social relevance In the early Cold War years the U S government established the National Science Foundation NSF a civilian agency that soon became widely known for its dedication to supporting first rate science The agency s 1950 enabling legislation made no mention of the social sciences although it included a vague reference to other sciences Nevertheless as Mark Solovey shows in this book the NSF also soon became a major albeit controversial source of public funding for them Solovey s analysis underscores the long term impact of early developments when the NSF embraced a scientistic strategy wherein the natural sciences represented the gold standard and created a social science program limited to hard core studies Along the way Solovey shows how the NSF s efforts to support scholarship advanced training and educational programs were shaped by landmark scientific and political developments including McCarthyism Sputnik reform liberalism during the 1960s and a newly energized conservative movement during the 1970s and 1980s Finally he assesses the NSF s relevance in a post truth era questions the legacy of its scientistic strategy and calls for a separate social science agency a National Social Science Foundation Solovey s study of the battles over public funding is crucial for understanding the recent history of the social sciences as well as ongoing debates over their scientific status and social value **Parliamentary Papers** Great Britain. on the teaching of qualitative analysis and the giving of useful advice during research consultations and there is a discussion of the preparation of material for publication The book has been written not only for sociologists but for all researchers in the social sciences and in such fields as education public health nursing and administration who employ qualitative methods in their work **Tax Court Memorandum Decisions** ,1981
