Merseyside At War:

Merseyside at War 1939-45 Mike Royden, 2019-02 Merseyside played a unique role during the Second World War which directly led to the area being a major enemy target in an attempt to put the port completely out of action. Consequently Merseyside became the most heavily bombed area outside of the capital. Despite the considerable damage the campaign failed and the port continued as a centre of operations for Western Approaches Command, controlling the safe passage of supply convoys into the Mersey, providing an essential lifeline to the success of the war effort. Rare insights into the life of war-torn Merseyside are included along with untold stories from those who witnessed the events first hand, including the Blitz, the defense of the port and the grim conditions in one of the largest prisoner of war and internment camps in the country in Huyton. A broad spectrum of life on the Home Front is recounted through memories, newspaper stories and personal memoirs to bear witness to the profound trials of courage and fortitude of ordinary people enduring this desperate struggle to survive the war years. This fraught resilience was not always a united front and controversial topics are also studied, such as conscientious objectors, racism, strike action and crime, plus the issue of the Spirit of the Blitz: was it a myth or reality? This book therefore is an attempt to cover the full period of the war on the Home Front in all its aspects, from the day war was declared to the wild celebrations on the streets at the cessation of hostilities, plus the immediate post-war problems.

Merseyside at War Rodney Whitworth, 1988 **Wirral at War** Mike Royden, 2022-06-15 Wirral at War is a tribute to the wartime record of the people of the Wirral in the two World Wars. Great War Britain Liverpool: Remembering 1914-18 Pamela Russell, 2018-04-30 The First World War claimed over 995 000 British lives and its legacy continues to be remembered today. Great War Britain Liverpool offers a detailed insight into this great city and its people facing the challenges of wartime. This highly accessible volume explores the city's regiments and includes many individual stories of men on the frontline and the vital role of women against the background of the changing face of industry, attitudes to conscientious objectors, hospitals for the wounded and their rehabilitation, peace celebrations, the fallen heroes and how they are commemorated. Liverpool Central Library Record Office have generously made available illustrative and other material from their extensive archives. *Tracing Your Liverpool Ancestors* Mike Royden, 2010-03-10 Tracing Your Liverpool Ancestors gives a fascinating insight into everyday life in the Liverpool area over the past four centuries. Aimed primarily at the family and social historian, Mike Royden's highly readable guide introduces readers to the wealth of material available on the city's history and its people. In a series of short, information-packed chapters, he describes in vivid detail the rise of

Liverpool through shipping manufacturing and trade from the original fishing village to the cosmopolitan metropolis of the present day Throughout he concentrates on the lives of the local people on their experience as Liverpool developed around them He looks at their living conditions at poverty and the laboring poor at health and the ravages of disease at the influence of religion and migration at education and the traumatic experience of war He shows how the lives of Liverpoolians changed over the centuries and how this is reflected in the records that have survived His useful book is a valuable tool for anyone researching the history of the city or the life of an individual ancestor Liverpool Territorials in the Great War Paul Knight,2016-09-30 The Territorial Force is the forgotten army of the First World War Between the pre war Regular Army which attempted to stem the German advance in 1914 and the New Armies who took to the field with such disastrous consequences on the Somme in 1916 stood the Territorial Army Liverpool s Territorials could be found on the Western Front before the famous Christmas truce of 1914 fighting in Gallipoli and supporting the Canadians Throughout 1916 and 1917 they succeeded and failed in some of the most brutal battles of the war During the German 1918 Spring Offensive Liverpool Territorials in the 55th West Lancashire Division halted the German advance effectively ending Germany s final bid to win the war Amazingly the Territorials were never intended trained or equipped for overseas service their role was to defend the UK mainland against invasion Yet men across Liverpool s diverse communities volunteered for the Territorials in the thousands forming the core of two divisions during the war Formed in 1908 but building on the Volunteer tradition of the 1850s the Territorials remain in Liverpool to this day Renamed the Army Reserve they are still training and volunteering for operations Offering a fresh integrated perspective on the Territorial Army during the First World War this is the remarkable story of the Liverpool Territorials **Citizen Soldiers** Helen B. McCartney,2005-11-03 The popular image of the British soldier in the First World War is of a passive victim caught up in events beyond his control and isolated from civilian society This book offers a different vision of the soldier s experience of war Using letters and official sources relating to Liverpool units Helen McCartney shows how ordinary men were able to retain their civilian outlook and use it to influence their experience in the trenches These citizen soldiers came to rely on local civilian loyalties and strong links with home to bolster their morale whilst their civilian backgrounds helped them challenge those in command if they felt they were being treated unfairly The book examines the soldier not only in his military context but in terms of his social and cultural life It will appeal to anyone wishing to understand how the British soldier thought and behaved during the First World War **The Merchant Seamen's War** Tony Lane,1990 Parliamentary Papers Great Britain. over the English countryside Hough and Richards offer a history that is at once deep and wide ranging They offer insight into how the British laid the groundwork for victory through aircraft research and production the development and implementation of command and control structures and research into new technologies the most important of which was radar Hough and Richards also utilize first person accounts of the battle whenever possible rendering the battle scenes with cinematic intensity A compelling introduction to one of the most important battles of World War II The Battle of Britain pays tribute to the men about whom Winston Churchill would remark Never in the field of human conflict was so much owed by so many to so few

Class, Culture and Community Anne Baldwin, Chris Ellis, 2012-11-15 In recent years historians have debated fervently on the reason for the decline of British Labour History as an academic discipline Most certainly the challenge of Thatcherism to the working classes and trade unions in the 1980s and the fragmentation of Labour history into gender studies industrial studies and women s history have contributed to its apparent decline Post modernists challenges to the concept of class culture and community have done their damage As a result Labour history in its broad school sense has been taught less and less in British universities Yet it survives and there are grounds for believing that it will revive This collection of chapters arose from a conference held at the University of Huddersfield in November 2010 held under the auspices of the Society for the Study of Labour History where nineteen papers were presented Ten of this disparate array of papers form the basis of this collection The theme of community and localised struggle form the first section ranging as it does from the newspapers representation of Yorkshire miners to brass bands and the development of separate culture The second section deals with the more traditional trade unionism and varieties of industrial struggle The third section focuses upon the political aspects of working class activity drawing upon the role of women and Labour policy on steel nationalisation and defence The fourth deals with radicalism ranging from the failure of Chartism the policy of working class organisations to emigration and the failure of the soft section of the British left in the 1920s and 1930s There is no all embracing concept here for what is a varied collection of chapters However what can be said is that British Labour history continues to provide new areas for research Indeed its death as an academic discipline has been greatly exaggerated This collection of book chapters represents the current revival in Labour history which has emerged in a form that brings together community and culture alongside class and political representation to explore the breadth and depth of working class identity
