Geographies of Writing makes three closely related contributions one theoretical to reimagine composing as spatial material and visual one political to understand the sociospatial construction of difference and one pedagogical to teach writing as a set of spatial practices Aided by seven maps and illustrations that reinforce the book's visual rhetoric Geographies of Writing shows how composition tasks and electronic space function as conduits for navigating reality *Themelios, Volume 41, Issue 3* D. **The True Identity of the People of the Way** Ross Daniel Harmon, 2024-10-24 The True Identity of the People of the Way demonstrates that Luke alludes to the book of Proverbs when Luke in Acts 9 and following calls the Church the Way Consequently this study shows that Luke identifies the people of the Way as followers of the one and true God depicted in Proverbs Within Acts Luke's claim was likely shocking to the Jewish people which relates directly to the function of the Way This fresh perspective on the way metaphor in Acts provides a more natural and fitting referent than previous proposals and finds its function as a polemic between Jesus followers and others This research identified allusions and motifs in literature to determine that Luke uses the way metaphor to describe Christ's followers The study first shows the need for research concerning Luke's motive or referent for calling the Church the Way Second the study examines the

probability of Proverbs influence on Luke Third the study provides an in depth analysis of the way metaphor in Acts concluding that Proverbs is the referent of the Way when referring to the Church
