Msce Unsung Song Study

Anna Poulin Alfeld

Msce Unsung Song Study:

The African Book Publishing Record ,2013 **Unsung Songs** Anna Poulin Alfeld,2008 Amy Beach employed many sources for her musical themes including folk music bird songs and music by herself and even other composers She based several of her instrumental compositions on her own art songs These compositions fall into three categories The first contains keyboard transcriptions or paraphrases of an entire song The second consists of short works for small ensembles that include piano in their instrumentation and include substantial quotation and reworking of the opening thematic material from the song The third comprises large multi movement works for orchestra in which at least one theme is derived from the song and extensively developed In all these works Beach takes melody and accompaniment from the songs and develops them in the instrumental work While some scholars have extrapolated programs or other extramusical meaning in the instrumental work through the application of the underlying song s text it does not appear that Beach intended such a close relation Instead this study demonstrates that Beach had an underlying vocal conception of all musical composition which places her in a tradition wherein vocal and instrumental composition are indelibly wedded
