Handbook of Human Factors and Ergonomics in Health Care and Patient Safety, Second Edition Pascale Carayon, 2011-11-09 The first edition of Handbook of Human Factors and Ergonomics in Health Care and Patient Safety took the medical and ergonomics communities by storm with in depth coverage of human factors and ergonomics research concepts theories models methods and interventions and how they can be applied in health care Other books focus on particular human factors and ergonomics issues such as human error or design of medical devices or a specific application such as emergency medicine This book draws on both areas to provide a compendium of human factors and ergonomics issues relevant to health care and patient safety The second edition takes a more practical approach with coverage of methods interventions and applications and a greater range of domains such as medication safety surgery anesthesia and infection prevention New topics include work schedules error recovery telemedicine workflow analysis simulation health information technology development and design patient safety management Reflecting developments and advances in the five years since the first edition the book explores medical technology and telemedicine and puts a special emphasis on the contributions of human factors and ergonomics to the improvement of patient safety and quality of care In order to take patient safety to the next level collaboration between human factors professionals and health care providers must occur This book brings both groups closer to achieving that goal

Finding a Sacred Oasis in Grief Steven Jeffers, Harold Ivan Smith, 2018-10-08 This work includes a foreword by John D Morgan Professor Emeritus of Philosophy Coordinator for Kings College Center for Education about Death and Bereavement Ontario Canada This practical resource guides the reader through all aspects of the grieving process and offers thought provoking and inspirational advice on support With exercises tips and contacts for further assistance Finding a Sacred Oasis in Grief provides a comprehensive understanding of this potentially difficult and complex topic It examines different types of grief and various approaches along with reference guides to particular religions and their traditions adopting a comprehensive multi faith approach Pastoral care

providers and religious leaders will find the unique hands on approach invaluable as will members of support organisations and volunteer carers It is also ideal for seminary and ministry students counsellors therapists and other care professionals Gives caregivers the tools to help dying and grieving persons face the best and worst that life has to offer It is the worst because death means the end of the attachments that make life worthwhile It is the best because it shows us what is truly meaningful and important in life Mortality is a great gift if we have the knowledge and the courtesy to face it John D Morgan in the Foreword

Multiteam Systems Stephen J. Zaccaro, Michelle A. Marks, Leslie DeChurch, 2012-05-22 This book examines an emerging organizational form called the multi team system MTS This type of aggregation is being increasingly adopted by organizations and agencies that need to respond to complex strategic problems There has been increasing interest in MTSs over the last decade to the point where there is now a need to describe these organizational forms more fully b build conceptual frames that can guide research and c begin developing tools to improve the study of MTSs The purpose of this book is to respond to these needs The book contains a series of chapters that expand prior conceptual frames of MTSs defining in more detail the compositional and linkage attributes that characterize such units The book also explores how such systems emerge and develop as well as the methods for studying MTSs The intent of the book is to establish and nurture a strong conceptual and methodological foundation that can guide research and practice with MTSs Because the notion of MTSs cuts across multiple domains this book will interest scholars in industrial organizational psychology organizational science management and organizational theory human factors sociology organization communications and public administration
