Using Chinese Classics for Intercultural Communicative Competence Jinai Sun, Xuehua Xiang, Li Ye, 2024-08-05 *Using Chinese Classics for Intercultural Communicative Competence* presents new strategies and tools for integrating Mandarin language teaching with fostering intercultural competencies through contemporary global lenses on Chinese classic texts. Chinese classic texts are canonical works in Chinese culture published before 1911. They offer a window into deeply held cultural values which learners of the Chinese language would benefit from studying to facilitate meaningful intercultural dialogues. With chapters covering classic Chinese texts such as *Journey to the West*, *Dream of the Red Chamber* and *The Romance of the Three Kingdoms*, this book will demonstrate the value, importance, and feasibility of teaching Chinese classic works for ICC development in the Chinese world language classroom and equip teachers with carefully planned, classroom-tested lesson models that demonstrate the innovative integrative models advocated in this book. This book will be valuable for pre- and in-service Mandarin Chinese teachers across various institutional settings at different levels looking for ready materials and professional development resources. The book can also be used as core material for teacher training programs.

Discourse Analysis of Language, Literacy, Culture, and Teaching Denise Ives, 2023-12-05 An essential text on discourse theory and analytic methods, this book demonstrates the possibilities of using discourse analysis to better understand language, literacy, culture, and teaching. Each chapter provides coherent, extended examples of individuals engaged in the process of doing discourse analysis. The narrative approach highlights the individual experiences of the discourse analysts and provides a unique, inside-the-mind view of the process and choices along the way. Across the book, stories describe processes involved in analyses, including identifying aims, formulating questions, selecting discourse, transcribing oral and multimodal discourse, translating discourse, chunking discourse, choosing and applying discourse, and other theory-generating and supporting claims and communicating findings. Chapters also feature sidebars with key theories and methods, recommended readings, and additional resources. This book is ideal for courses on discourse analysis, qualitative research, or language, literacy, culture, and teaching. Readers are invited to imagine the possibilities for using discourse analysis to answer their own questions. [Asian American Identities, Families, & Schooling](#) Clara C. Park, A. Lin
